Hoover Says U.S. Top Enemy Of Red China

WASHINGTON (AP) — Communist China has singled out the United States as its No. 1 enemy and is working to tap needed scientific information here by any means, FBI Director J. Edgar Hoover says.

"The potent threat to our national security posed by Red China still exists," is the way Hoover phrased it. "In fact, the blatant, belligerent and illogical statements made by Red China's spokesmen during the past year leave no doubt that the United States is Communist China's No. 1 enemy."

Hoover's warning was delivered behind closed doors last April to a House Appropriations was released today.

"This bitterness towards the United States and other Western countries—even the Soviet Union—is a factor in Red China's ambition to equal other major powers economically, militarily and, especially, in scientific endeavors," Hoover said.

This goal, Hoover said, has resulted in Chinese Communist intelligence activities here — overt as well as convert—to get needed material, particularly in the scientific field.

The FBI chief said one clandestine effort was thwarted in 1967 when an effort was made to send electronic equipment to Hong Kong by way of Canada.

Hoover said informants have made "deep penetrations in intelligence operations" in this country by Communist countries, particularly the Soviet Union, Cuba and Red China.

But, without specifying which countries, Hoover said these Communist intelligence services also try to penetrate his own FBI, the CIA, State and Defense Departments. He didn't mention the degree of success.

Turning to Communist China, Hoover said:

—"Red China has been flooding the country with its propaganda and there are over 300,000 Chinese in the United States, some of whom could be susceptible to recruitment either through ethnic ties or hostage situations because of relatives in Communist China."

—In addition, up to 20,000 Chinese immigrants can come here each year and this provides a means to send illegal agents into our nation." He said there are active Chinese Communist sympathizers in the Western Hemisphere in a position to aid in operations against this country.

—A growing problem concerns the 40,000 Hong Kong based Chinese seaman, many actually living on the China mainland. We are aware of situations where they have served as couriers in intelligence operations."

On any given day, Hoover said, three-fourths oof these crewmen are on ships around the world and about 27,000 are members of the Chinese Communist-dominated Hong Kong Seamen's Union.

Although it is not necessary for a seaman to desert ship to perform an intelligence assignment," Hoover said, it is noted that there were over 700 desertions by Chinese crewmen in the United States in fiscal 1967, and this accounted for more than 80 per cent of the total desertions by Chinese crewmen throughout the world during that year.

Flood Waters Receding

Ohio's Death Toll Climbs To 33 In Wake Of Storms

CLEVELAND, Ohio (AP) — The death toll had climbed to at least 33 today as searches continued for more victims of storms that pounded northern Ohio from Lake Erie Friday night and the floods that followed. At least five persons were missing.

Floodwaters were reported receding in nearly all the affected areas, but emergencies remained in Norwalk and Wooster and the lakefront town of Vermilion.

The latest confirmed dead included three members of a family whose house trailer was swept away by flooded Apple Creek at Wooster, three unidentified persons who drowned when a boat overturned at Wooster and a woman whose car was swept away by flood waters at Kidron in Wayne County.

An infant in the overturned boat and two Wooster policemen were among the missing. A milk truck driver was reported missing in Ashland County and a Sandusky man swept from a bridge Saturday also was being sought.

The U.S. Coast Guard said that nearly 200 holiday boaters were still unaccounted for, but that they were expected to report in safely. A spokesman said it was probable that they had made shore safely, but had not reported because of poor communications. Telephone service was disrupted by the storms.

The Coast Guard cut its search force from 11 planes and more than 50 vessels to two helicopters and 12 vessels Sunday. A small force of one cutter, several smaller craft, and one plane was on duty Sunday night while daybreak allowed full resumption of operations.

A Coast Guard spokesman said the search was being concentrated on the northwestern shore of the lake. He said that most overdue boaters were believed safely on shore but out of contact with relatives and the Coast Guard due to some telephone communications being out.

The Vermilion River crested Sunday afternoon after rising 13 feet above flood stage Saturday night and Sunday, forcing the evacuation of several hundred persons in Vermilion, a town of 6,000. Water pressure built up again Sunday in Vermilion, but city officials warned residents to boil drinking water for safety.

In Norwalk, where waters reached depths of 15 feet Saturday when a reservoir broke, 150 National Guard troops remained on duty Sunday night, enforcing a curfew from 9 p.m. until 5 a.m. for the second straight night.

The water in Norwalk receded Sunday, but the city of 15,000 remained without power or water for a second straight night.

In Wooster, where a flash flood hit Saturday, the city remained without safe water, but had power. Wooster businesses, factories, and public offices were to remain closed Monday due to the water shortage.

Several other towns throughout northern Ohio reported high water, water and power shortages, and communications difficulties Sunday. But a return to normal was beginning with cleanup operations, although communities such as Lakewood reported cleanup work would last for several weeks.

Most routes in northern Ohio were reported clear Sunday after water, poles, trees, and fallen power lines blocked many of them during the weekend.

Raccoons Invade School

LAFAYETTE, Ind. AP—The masked figures roaming the corridors at Lafayette's new Jefferson High School at night are causing school officials some concern.

They're raccoons, apparently enticed inside last winter by construction on workers' lunchbox leftovers. Now they've living and multiplying above the false ceilings, chewing on wiring and pipes, and staining the ceiling tile.

More than 1,100 students are taking summer classes in the completed part of the $12 million 455,000 square foot building.

Alan Foster, a project engineer for the construction company, says workers have set some traps, "And as far as we know, the problem is solved."

But one custodian disagrees. "So far, I'd say the coons are winning," he said.

Enemy Units Begin New Ground Attack

Cong Force Blasts Into Stronghold

Americans Report 24 Casualties By Grenades, Bombs

SAIGON (AP) — Viet Cong forces today launched their first ground attack in a week, blasting their way into a U.S. military headquarters with grenades and dynamite bombs.

The attack 120 miles northeast of Saigon killed six Americans and wounded 18. U.S. headquarters said damage to material within the camp was moderate," but field reports said three or four armored personnel carriers were blown up and destroyed and at least one was damaged.

The only known enemy casualties were two soldiers found inside the district headquarters, a spokesman said.

U.S. headquarters said it was the first enemy initiated attack in which five or more Americans were killed since June 20. But a spokesman said I don't read anything into it. It's an isolated attack in an area that has been usually quiet. The enemy decided to go when they had a target of opportunity."

The sources said the Viet Cong are preparing for another three-point campaign scheduled for late July—increased terrorism linked with stepped up battlefield activity, propagandizing and creating general disturbances."

South Vietnamese headquarters reported Viet Cong terrorists set off a bomb in a theater in Can Tho City in the Mekong Delta, 76 miles southwest of Saigon, killed one Vietnamese child and another civilian and wounded 36 government soldiers and 27 civilians.

Services Set Tuesday For River Victim

Services will be held Tuesday for a 19-year-old Aliquippa area youth who lost his life Friday in the Ohio River when he fell from a boat near Georgetown.

The body of Michael Chupa Jr. of Patterson Rd., Raccoon Township, was recovered Sunday morning in the river off the Ohio shore near the East Liverpool waterworks.

Son of Mr. and Mrs. Michael Chupa, he was a student at the Beaver Campus of Penn State University and had been working during vacation at the Jones & Laughlin Steel Corp. plant in Aliquippa.

He and his brother, John, were on the boat while water skiing. When the boat, operated by Frank Pardue, 22, of Aliquippa, made a sharp turn, the youth fell from where he was sitting on the side. He surfaced once, witnesses said, then went under.

His parents said he could swim.

Squire John Herron, Hancock County Coroner, ruled accidental drowning in the case.

The body was located about 10:06 a.m. yesterday by Civil Defense members Harry Watkins, Ed Fotheringham and George Martin, according to city police.

Besides his parents and brother, he is survived by two sisters.

Services will be held tomorrow at the Dean Pearce Funeral Home in Aliquippa, where friends may call tonight.

Terry Lee Hawk Victim

Brother Releases Brake, Child 3, Crushed By Car

Terry Lee Hawk, 3, son of Charles and Dorothy Hawk of Wellsville RD 1, was killed about 2 p.m. Sunday when run over by the family car.

The accident occurred at the Thomas Buckel residence on County Rd. 418 (old Salineville Rd.) 1.1 miles north of Buckeye Ave., Wellsville.

Sheriff's Deputies Robert Beresford and Dan Gartland, both of Wellsville, investigated. They said Terry was standing by the left front wheel of the sedan when his brother James Allen, 4, inside the car, accidentally released the emergency brake.

The front wheels were cut to the right, witnesses told the deputies. As the car rolled backward, the left front wheel knocked Terry down and ran over the left side of his head and left side of his body.

Deputies said the sedan came to a stop after drifting in a curve across the slope.

Dr. Roy Costello, deputy Columbiana County coroner, ruled accidental death.

Terry Lee was pronounced dead at 2:05 p.m. at City Hospital.

He was born Sept. 24, 1966, in Salem.

Besides his parents and brother, he is survived by a sister, Shannon Kay Hawk at home; his maternal grandmother, Mrs. Harriett Wilson of Salineville, and his paternal grandparents, Mr. and Mrs. Charles Hawk of Wellsville RD.

Services will be held Tuesday at 2 p.m. at the Haugh Funeral Home, Wellsville, by the Rev. Charles Dryer of the Covenant United Presbyterian Church.

Friends may call at the funeral home tonight and Tuesday.

More Showers Due For Next Few Days

"Showers" figure prominently in the tri-state weather picture a least through Wednesday.

The forecast says some rain is likely during the next few days, with little change in temperature until Wednesday, when it will turn warmer.

Tonight's low will be in the 60s and Tuesday's high in the 70s.

Brotherhood Begins Anaheim Convention

The International Brotherhood of Operative Potters today opened its 75th annual convention at the Grand Hotel in Anaheim, Calif.

The 200 delegates are scheduled to act on at least 44 resolutions. The meeting will continue through Friday or Saturday. Installation of 12 international officers for four - year terms starting Aug. 1 will be one of the highlights.

This morning's session was devoted to adoption of rules and appointment of committees.

Repairman Accused In Coed's Death

ANN ARBOR, Mich. (AP) — A 28-year-old repairman has been accused of the shooting death of a University of Michigan coed—the seventh young woman slain in the area in less than two years.

Sources close to the investigation said the man was released from the Southern Michigan Prison six months ago after serving a sentence for rape.

Police Chief Water Krasny said the shooting victim, Margaret Phillips, 25, had been counseling the man, Ernest R. Bishop Jr., on how to improve his life. She was doing it "on her own," Krasny commented.

He said Miss Phillips also had "more than a casual interest" in the six previous slayings and had interviewed several persons on the subject. Two of the kilings occurred while Bishop was in prison.

Miss Phillips was shot in her apartment early Saturday. She died Sunday without regaining consciousness.

Four heavily armed policemen arrested Bishop as he left his apartment building on the city's north side Sunday night.

The man, who is small and thin, had been working as a refrigeration repairman police said.

Washtenaw County Prosecutor William Delhey said Bishop, booked by police on an informal charge of premeditated murder, would be charged formally in District Court today.

Miss Phillips—a slim 5-foot-4 graduate student in sociology—

In Georgia Swamp

Passengers, Crew Killed When Small Jet Crashes

MONROE, Ga. (AP) — A twin-engine Air South commuter airplane with 14 persons aboard crashed and exploded in a swampy area Sunday night and there were no known survivors, the Federal Aviation Agency said today.

FAA Duty Officer George Collier said the plane was on an instrument flight when it crashed about 9:20 p.m. about five miles west of Monroe. The plane, flight 168, had left Atlanta 28 minutes earlier.

Robert Dick, vice president of Air South, said the plane was on a regularly scheduled flight from Atlanta to Greenville, Spartanburg and Sumter, S.C. It carried 12 passengers in addition to the pilot and copilot, he said.

The plane was a twin-engine turbojet Beechcraft known as a Beech 99 airliner with a capacity of 17 persons, Dick said. He added the plane was less than a year old.

"We have no idea what happlened," Dick said. "I'd hesitate to say one way or the other. This is our first accident.

Walton County Sheriff Franklin Thornton said the plane crashed in good weather with clear skies and no wind. He said it struck about 20 feet from an abandoned house but the house was not destroyed.

"It just covered the top with debris," the sheriff said.

Thornton said wreckage was scattered over an acre and a half and that there were only small pieces left of the aircraft.

There were no witnesses to the accident but the sheriff said

GI's Parents Not Permitted To Adopt Boy

CINCINNATI (AP) — A Vietnamese youth who saved a local soldier's life cannot be adopted by the serviceman's parents or even brought to the United States because of his age.

As a result, Spec. 4 Ken Parker, 19, of suburban White Oak might request an extension of service in Vietnam.

Ta Huy Thai, 14, cannot be adopted by Mr. and Mrs. Robert Parker because he is too young. He cannot visit here because he is of military age, according to the Minister of the Interior of the Republic of Vietnam.

"We believe this is the final answer and it is 'No,'" the elder Parker said Sunday. "The American embassy in Saigon has told us the chance of a "Vietnamese government reversal is slight."

The boy saved the younger Parker's life as he pointed out several Viet Cong to the soldier serving in a combat zone. The friendship between Ken and the youth grew and Ken wrote his parents that "Thai seems like a son to me."

Mrs. Parker said that "Ken is all shook up and he said in his last letter that Thai is brokenhearted. He had planned so long on coming here and now this . . ."

"If he absolutely can't come here, we intend to do what we can to support his education in Vietnam," Parker said.

Parker said that the problem is that Ken is due to return to the United States in August — he is to be stationed at Ft. Gordon, GA. — but "now we're afraid that because of this, Ken will request to stay in Vietnam. If he did that, it would break our hearts."

Immigration regulations prohibited adopting a foreign youngster Thai's age so the Parkers attempted to find a way to bring Thai to their home without actually adopting him. U.S. Rep. Donald Clancy, R-Ohio, contacted the American embassy in Saigon and American officials said they would give Thai a visa if the Vietnamese government approved.

Bad Storms Hit Nation's Midsection

By The Associated Press

High winds, thunderstorms and nine funnel clouds walloped the nation's midsection late Sunday and early today.

The focus of the violent weather was a 100-mile belt across central Illinois, where winds and rain smashed down trees and power lines and made driving tricky for motorists.

But storms stretched along a front from Maryland to the central Rockies.

Northwest of Springfield, Ill., a tree fell on a car, trapping five persons inside. In Petersburg, high winds took the roof off a home.

Three inches of rain fell in San Jose, Ill., north of Springfield.

Skies were clear over the rest of the nation, except parts of the southern Appalachians, Florida, west Kansas and the Texas Panhandle and Montana, where rains were heavy.

Winds in Miles City, Mon., were clocked at 53 miles an hour.

Weather was mostly cool in the North, muggy in the South.

Early morning temperatures around the nation ranged from 35 in Houlton, Maine, to 87 in Dallas.

Some other temperatures and conditions around the nation: Boston 60 cloudy, New York City 69 cloudy, Philadelphia 70 rain, Washington 75 cloudy, Atlanta 78 clear, Miami 83 clear, Detroit 60 cloudy, Chicago 64 rain, Minneapolis-St. Paul 64 partly cloudy, St. Louis 73 thunderstorms, Kansas City 80 partly cloudy, Dallas 87 clear, Denver 66 clear, Phoenix 79 clear, Los Angeles 64 clear, San Francisco 54 clear, Seattle 58 clear, Anchorage 61 clear, Honolulu 79 partly cloudy.

Not Sure Of Itself

Congress Has Troubles With Campus Disorders

WASHINGTON (AP) — Congress, which has criticized colleges for failing to deal with student uprisings, is having a hard time itself coming to grips with the problem.

Dozens of bills have been introduced, scores of speeches made and committees have spent weeks studying the situation but Congress is still not sure what, if anything, it should do.

The problem is much the same as on many campuses: Sharply conflicting views as to what might be a proper course of action canceling each other out and producing confusion and indecision.

Some tactics used by student agitators have also appeared in the halls of Congress. A boycott by members opposed to legislation effectively shut down the House Education and Labor Committee when a majority appeared ready to approve a bill.

The committee, which has prime responsibility for guiding Congress in this area has borne the brunt of the battle and its failure to reach any kind of agreement illustrates the conflicting forces working on Congress.

It began looking into the problem in the early spring when the sap started rising in the student radicals and riots bloomed on campuses across the land.

The pressure for committee action mounted as the flow of mail denouncing the campus rioters increased in congressional offices and members responded by introducing bills that would deal harshly with the colleges and students involved.

It was in an effort to head off such stringent legislation that Rep. Edith Green, D-Ore., chairman of the subcommittee with direct authority to act, tried to find a solution. But she got no encouragement from a parade of college officials and other educators who said it was their problem and the cause of academic freedom required Congress to stay out of it.

She also received no encouragment from the administration, which sent Atty. Gen. John N. Mitchell, Secretary of Health, Education and Welfare Robert H. Finch and Commissioner of Education James E. Allen to express firm opposition to the kind of legislative remedy she was seeking.

In the end she was without the support of her own subcommittee and transferred the fight to the full committee, where a coalition of Republicans and senior Democrats produced a shaky majority for a bill that would require colleges to establish rules of conducts for students and faculty and file them with the government. Failure to do so would result in a loss of federal education funds.

It was the meeting at which this bill was expected to be approved that the opponents boycotted, leaving the committee one short of a quorum and thus unable to act. During the time gained, college presidents increased their lobbying against the bill and so did the administration. The majority crumbled.

Hoover Requests More Manpower

WASHINGTON (AP) — FBI Director J. Edgar Hoover has asked Congress for another 525 lawyers and accountants, and possibly a few linguists and chemists, to add to his corps of special agents.

Hoover also wants 336 additional cerks, and if the friendly reception he got before a House appropriations subcommittee is an indication, the FBI's manpower will be increased this year to a record 17,345 employes.

Testimony released today of Hoover's appearance before the subcommittee last April 17 showed the FBI director asked for amost $233 milion for fiscal 1970, a record budget supported by President Nixon.

The reason given for the $13.2 million increase—one of the few budget raises proposed by the new administration—was to beef up the FBI's drive against organized crime.

Agnew Seen Second Pick After Finch

NEW YORK (AP) — President Nixon didn't offer the Republican vice presidential nomination to Spiro T. Agnew until Robert Finch turned it down, Theodore H. White says in the current issue of Life magazine.

Finch, currently the secretary of health, education and welfare, told Nixon "he could be a better friend and adviser than a running mate," White said, in an excerpt from his forthcoming book, "The Making of the President 1968."

White said Nixon picked Agnew over former Massachusetts Gov. John Volpe, now secretary of transportation, after Republican conservatives and liberals had ruled out each other's choices.

Conservatives and Southerners vetoed New York Mayor John V. Lindsay and Sens. Charles Percy of Illinois and Mark Hatfield of Oregon and Gov. George Romney of Michigan; liberals turned down Gov. Ronald Reagan of California and Sen. John Tower of Texas, according to White.

The Nixon-Finch relationship was strained recently when Nixon overruled Finch's choice of Dr. John H. Knowles as assistant secretary for health and scientific affairs.

Springfield Police Accept New Contract

SPRINGFIELD, Ohio (AP)—Striking patrolmen returned to duty today after accepting a new two-year agreement with the city which provides an across - the-board $1,200 pay raise effective Jan. 1.

The policemen, who had been conducting a "sick call" strike since last Wednesday, accepted the city's offer at a meeting Sunday night.

The pact, hammered out at a six-hour meeting Sunday between officials of the Fraternal Order and Police and City Manager Alfred P. Strozdas and Personnel Director John W. Cordell, hikes starting pay from $7,800 to $9,000 on Jan. 1, 1970. Patrolmen's pay goes up to $9,400 next July 1 and $9,800 on Jan. 1, 1971.

Chemists have discovered 103 chemical elements.

Ohio's Entries End Powder Puff Flight

WASHINGTON (AP)—Jo Ann Stype of Wooster, Ohio, and her copilot, Joan Mace of Athens, Ohio, were among the early arrivals Sunday as more than a third of the 92 light planes competing in the 23rd annual Powder Puff Derby reached the finish line.

Mrs. Stype is making her fourth bid for honors in the cross country flying contest between San Diego, Calif., and Wasington.

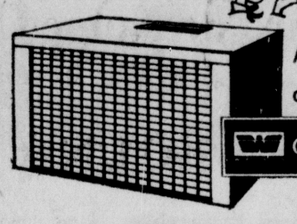

Contestants must land at Dulles International Airport before sunset today. Winners will be determined on a formula based on handicaps and arrival time.

All of the female air jockeys will be honored by Mrs. Richard Nixon with a tea at the White House Wednesday.

Half the world's coconut products are supplied by the Philippines.

Not Sure Of Itself

Congress Has Troubles With Campus Disorders

WASHINGTON (AP) — Congress, which has criticized colleges for failing to deal with student uprisings, is having a hard time itself coming to grips with the problem.

Dozens of bills have been introduced, scores of speeches made and committees have spent weeks studying the situation but Congress is still not sure what, if anything, it should do.

The problem is much the same as on many campuses: Sharply conflicting views as to what might be a proper course of action canceling each other out and producing confusion and indecision.

Some tactics used by student agitators have also appeared in the halls of Congress. A boycott by members opposed to legislation effectively shut down the House Education and Labor Committee when a majority appeared ready to approve a bill.

The committee, which has prime responsibility for guiding Congress in this area has borne the brunt of the battle and its failure to reach any kind of agreement illustrates the conflicting forces working on Congress.

It began looking into the problem in the early spring when the sap started rising in the student radicals and riots bloomed on campuses across the land.

The pressure for committee action mounted as the flow of mail denouncing the campus rioters increased in congressional offices and members responded by introducing bills that would deal harshly with the colleges and students involved.

It was in an effort to head off such stringent legislation that Rep. Edith Green, D-Ore., chairman of the subcommittee with direct authority to act, tried to find a solution. But she got no encouragement from a parade of college officials and other educators who said it was their problem and the cause of academic freedom required Congress to stay out of it.

She also received no encouragement from the administration, which sent Atty. Gen. John N. Mitchell, Secretary of Health, Education and Welfare Robert H. Finch and Commissioner of Education James E. Allen to express firm opposition to the kind of legislative remedy she was seeking.

In the end she was without the support of her own subcommittee and transferred the fight to the full committee, where a coalition of Republicans and senior Democrats produced a shaky majority for a bill that would require colleges to establish rules of conducts for students and faculty and file them with the government. Failure to do so would result in a loss of federal education funds.

It was the meeting at which this bill was expected to be approved that the opponents boycotted, leaving the committee one short of a quorum and thus unable to act. During the time gained, college presidents increased their lobbying against the bill and so did the administration. The majority crumbled.

Agnew Seen Second Pick After Finch

NEW YORK (AP) — President Nixon didn't offer the Republican vice presidential nomination to Spiro T. Agnew until Robert Finch turned it down, Theodore H. White says in the current issue of Life magazine.

Finch, currently the secretary of health, education and welfare, told Nixon "he could be a better friend and adviser than a running mate," White said, in an excerpt from his forthcoming book, "The Making of the President 1968."

White said Nixon picked Agnew over former Massachusetts Gov. John Volpe, now secretary of transportation, after Republican conservatives and liberals had ruled out each other's choices.

Conservatives and Southerners vetoed New York Mayor John V. Lindsay and Sens. Charles Percy of Illinois and Mark Hatfield of Oregon and Gov. George Romney of Michigan; liberals turned down Gov. Ronald Reagan of California and Sen. John Tower of Texas, according to White.

The Nixon-Finch relationship was strained recently when Nixon overruled Finch's choice of Dr. John H. Knowles as assistant secretary for health and scientific affairs.

Springfield Police Accept New Contract

SPRINGFIELD, Ohio (AP)—Striking patrolmen returned to duty today after accepting a new two-year agreement with the city which provides an across - the-board $1,200 pay raise effective Jan. 1.

The policemen, who had been conducting a "sick call" strike since last Wednesday, accepted the city's offer at a meeting Sunday night.

The pact, hammered out at a six-hour meeting Sunday between officials of the Fraternal Order and Police and City Manager Alfred P. Strozdas and Personnel Director John W. Cordell, hikes starting pay from $7,800 to $9,000 on Jan. 1, 1970. Patrolmen's pay goes up to $9,400 next July 1 and $9,800 on Jan. 1, 1971.

Chemists have discovered 103 chemical elements.

Ohio's Entries End Powder Puff Flight

WASHINGTON (AP)—Jo Ann Stype of Wooster, Ohio, and her copilot, Joan Mace of Athens, Ohio, were among the early arrivals Sunday as more than a third of the 92 light planes competing in the 23rd annual Powder Puff Derby reached the finish line.

Mrs. Stype is making her fourth bid for honors in the cross country flying contest between San Diego, Calif., and Wasington.

Contestants must land at Dulles International Airport before sunset today. Winners will be determined on a formula based on handicaps and arrival time.

All of the female air jockeys will be honored by Mrs. Richard Nixon with a tea at the White House Wednesday.

Half the world's coconut products are supplied by the Philippines.

Hoover Requests More Manpower

WASHINGTON (AP) — FBI Director J. Edgar Hoover has asked Congress for another 525 lawyers and accountants, and possibly a few linguists and chemists, to add to his corps of special agents.

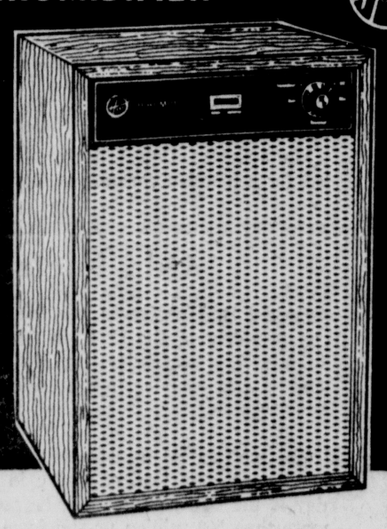

Hoover also wants 336 additional cerks, and if the friendly reception he got before a House appropriations subcommittee is an indication, the FBI's manpower will be increased this year to a record 17,345 employes.

Testimony released today of Hoover's appearance before the subcommittee last April 17 showed the FBI director asked for amost $233 milion for fiscal 1970, a record budget supported by President Nixon.

The reason given for the $13.2 million increase—one of the few budget raises proposed by the new administration—was to beef up the FBI's drive against organized crime.

GI's Parents Not Permitted To Adopt Boy

CINCINNATI (AP) — A Vietnamese youth who saved a local soldier's life cannot be adopted by the serviceman's parents or even brought to the United States because of his age.

As a result, Spec. 4 Ken Parker, 19, of suburban White Oak might request an extension of service in Vietnam.

Ta Huy Thai, 14, cannot be adopted by Mr. and Mrs. Robert Parker because he is too young. He cannot visit here because he is of military age, according to the Minister of the Interior of the Republic of Vietnam.

"We believe this is the final answer and it is 'No,'" the elder Parker said Sunday. "The American embassy in Saigon has told us the chance of a "Vietnamese government reversal is slight."

The boy saved the younger Parker's life as he pointed out several Viet Cong to the soldier serving in a combat zone. The friendship between Ken and the youth grew and Ken wrote his parents that "Thai seems like a son to me."

Mrs. Parker said that "Ken is all shook up and he said in his last letter that Thai is brokenhearted. He had planned so long on coming here and now this . . ."

"If he absolutely can't come here, we intend to do what we can to support his education in Vietnam," Parker said.

Parker said that the problem is that Ken is due to return to the United States in August — he is to be stationed at Ft. Gordon, GA. — but "now we're afraid that because of this, Ken will request to stay in Vietnam. If he did that, it would break our hearts."

Immigration regulations prohibited adopting a foreign youngster Thai's age so the Parkers attempted to find a way to bring Thai to their home without actually adopting him. U.S. Rep. Donald Clancy, R-Ohio, contacted the American embassy in Saigon and American officials said they would give Thai a visa if the Vietnamese government approved.

Bad Storms Hit Nation's Midsection

By The Associated Press

High winds, thunderstorms and nine funnel clouds walloped the nation's midsection late Sunday and early today.

The focus of the violent weather was a 100-mile belt across central Illinois, where winds and rain smashed down trees and power lines and made driving tricky for motorists.

But storms stretched along a front from Maryland to the central Rockies.

Northwest of Springfield, Ill., a tree fell on a car, trapping five persons inside. In Petersburg, high winds took the roof off a home.

Three inches of rain fell in San Jose, Ill., north of Springfield.

Skies were clear over the rest of the nation, except parts of the southern Appalachians, Florida, west Kansas and the Texas Panhandle and Montana, where rains were heavy.

Winds in Miles City, Mon., were clocked at 53 miles an hour.

Weather was mostly cool in the North, muggy in the South.

Early morning temperatures around the nation ranged from 35 in Houlton, Maine, to 87 in Dallas.

Some other temperatures and conditions around the nation: Boston 60 cloudy, New York City 69 cloudy, Philadelphia 70 rain, Washington 75 cloudy, Atlanta 78 clear, Miami 83 clear, Detroit 60 cloudy, Chicago 64 rain, Minneapolis-St. Paul 64 partly cloudy, St. Louis 73 thunderstorms, Kansas City 80 partly cloudy, Dallas 87 clear, Denver 66 clear, Phoenix 79 clear, Los Angeles 64 clear, San Francisco 54 clear, Seattle 58 clear, Anchorage 61 clear, Honolulu 79 partly cloudy.

Education: The Name Of The Game

What kinds of plowshares will the sword makers turn to when, if ever, world conditions permit defense spending to be reduced to a happy level comparable with, say, annual expenditures on congressional stationery?

One example is an unlikely product assembled by a leading aerospace firm, Lockheed Missiles & Space Co. of Sunnyvale, Calif. It's a course in drug education aimed at children in grades six through nine.

Described as a complete educational package, "Drug Decision" consists of a three-hour color movie, a 300-page student workbook, a film-slide-tape presentation for teachers and parents, a five-hour teacher course and follow-up materials.

The program, which relies heavily on gaming and simulation techniques, grew out of the company's previous experience in teaching basic skills to disadvantaged children. In one, "the Spanish land grant game," 30 failing Mexican-American eighth graders were moved completely away from the school environment for two days.

The youngsters were told to survey a piece of property and draw up a plot. This gave them intense exposure to eighth-grade mathematics. Then they had to apply to the Spanish government mor a land grant. Tto find out how to do this, they had to do research in a library. This gave them a practical lesson in library use. Finally, composing the application gave them essay-writing practice.

The students, who previously had an attention span of about two hours, enthusiastically worked 16 hours a day on the game. Disciplinary problems almost disappeared.

The drug course, which Lockheed is test-marketing in Prince George County, Md., at $4 a pupil, likewise avoids the preaching kind of teaching. Instead, students are cast in the roles of community decision-makers on questions pertaining to drugs.

The company has developed more than 20 games to stimulate interest in basic learning skills and expects to be in the education business on a large scale in the 1970s.

Now that's a plowshare.

Drawing On "Think Tank"

Probably the overriding concern in the United States today is the war in Vietnam.

The concern of all is how to end it.

That concern is felt most directly by those who have the responsibility (given to them by the votes) for bringing it to an honorable conclusion.

THE NIXON ADMINISTRATION, in assuming that responsibility, is trying in various ways to terminate the war. One of them is to employ a "think tank" to come up with proposals designed to end the war.

The "think tank" is the Hudson Institute at Croton-on-Hudson, a small independent organization that makes analytical studies for government departments and private industry.

Its thinkers recently came up with a proposal for a modified strategy in the war. The plan currently is circulating at high levels in the administration and reportedly is being described as having "considerable appeal."

The proposal ranges over many aspects of the war. Some of its concepts call for the reduction of 100,000 to 200,000 men by the middle of 1971, reliance only on volunteers, extension to two years of the tour of duty of each soldier and construction of new types of death-belt barriers around Saigon and along the Cambodian border.

It would seem that the reduction of troops may already have been adopted by the administration.

The men who devised the modifications contend they could cut American casualties to a handful.

A NUMBER OF actual combat tactics would be changed and, in a novel application of the old moat theory, two deep fortified canals would be constructed. One would run along the Cambodian border and the other would be built around the periphery of Saigon.

Many other ideas are included in the strategy proposal. Whether or not they will be adopted —and be successful—remains to be seen. But for what comfort it may bring—there is thinking going on.

Containment By Soviets

Communist China, which long has been "contained" by the United States in part through a policy of providing foreign aid to the countries surrounding it, now is about to be "contained" by the world's other superpower, the Soviet Union.

The United States, fearful of a Red China that threatened to expand to embrace all of Southeast Asia, spent millions upon millions of dollars to shore up selected countries surrounding the Communist giant. The aid was in the form of both economic and military assistance.

For nearly 25 years now the policy has been in effect and effective. The caged tiger has screamed and raged but has been unsuccessful in attempts to break out of its "bonds."

Now an all-out diplomatic offensive has been initiated from a different direction with the same purpose as its goal. The Soviet Union is striving for a broad, Moscow-backed security alignment of Asian nations (the largest number possible) to keep Red China caged.

The Chinese tiger, if it isn't a paper one, will twist and turn in fury, unsheathe its claws and strike out in retaliation. Its response to the inexorable application of pressure by Russia, can have a profound effect on the world's balance of power.

The rest of the world should learn a great deal about China's true strength and intentions as it watches Peking's response to Moscow's hammerlock.

Thoughts

"I love to think of nature as an unlimited broadcasting station, through which God speaks to us every hour, if we will only tune in."—George Washington Carver, American agricultural scientist.

Letters To The Editor

For years it has been the practice of me and my family before me to enjoy a weekend of fishing at one of our state flood control lakes.

They were built by the taxpayers money for all to use. Last weekend I took my wife, two young sons and father-in-law to Piedmont Lake to enjoy a night at the lake and do a little fishing.

At 1 a.m. two state lake patrol officers notified me camping is not permitted there, and wrote me a citation to appear in court July 2. Also they said to be at the Sheriff's office at Cadiz to post a $20 bond before July 2.

True, my wife and boys were asleep in the back of my station wagon while my father-in-law and I were fishing. I have done this for years in the area where we were; it wasn't posted and still isn't posted. If this practice is not permitted, I believe it should be posted.

I also feel that a citation was highly irregular. These officers should have warned us that staying overnight is not permitted, and I would have thanked them and moved on.

Is this the way our state is to operate our recreation areas? I, like 90 per cent of Ohio's population, work hard for a living and try to have a little relaxation when I can. I, too, must count pennies. It burns me when public facilities are controlled in such a manner that only a select few have cabins on our lake fronts to enjoy what all the taxpayers must pay for.

To stay overnight now at Piedmont, you must either rent a cabin or motel room or rent trailer space (all at the boat dock). No tents are allowed.

Further commercializing is evident at the dock itself. The least amount of time you may rent a row boat is for six hours at a cost of $4. You must rent a fire extinguisher for the boat, and you must rent a distress flag for the boat plus life preservers, so that the total cost is $7.60 for a rowboat.

I know that wages must be paid and overhead, also, but I think $7.60 for a boat plus a $20 contribution (?) to the state for a few hours of fishing is pretty stiff price to pay at a free, tax-supported state recreation area.

DALE C. WATKINS
1146 Riverside Ave.
Wellsville

(Editor's Note: Piedmont Lake is not a state-owned lake in the regular sense of the term. Piedmont is an impoundment constructed as part of a flood control measure by the Army Corps of Engineers and is governed by the Muskingum Watershed Conservancy District. The MWCD adopts its own regulations and provides its own police protection. Ohio's Wildlife Division has an agreement with MWCD whereby it it conducts fish management programs, including stocking, so long as the waters are open for public fishing. Camping sites and boating facilities are operated by private concessionaires under contract with MWCD. The rules and regulations, including fees, governing these facilities are established by the MWCD and do not come under any Ohio governmental agency. Other area lakes operated as part of this system included Leesville, Clendenning, Tappan and Atwood.

Pollution Rapped

I am writing this in the hope we can get some action from the state on the pollution of our beautiful (could be) Ohio River.

For the past three weeks, the scum and whatever else it might be has been terrible, so bad, in fact that I simply had to do some checking and phoning to try to find out what it is, where t is coming from, and what can be done about it.

I have been told we have no laboratory here to check or rather to break down a water sample (except for bacteria to make sure it is safe for drinking), but that the state does operate a large laboratory that can test and determine what all is being dumped into the river and (we hope) thus lead us to the culprit or culprits responsible for this ugly mess.

Now, we have to get the state to send someone in here to check it out, so I have obtained the name, address and phone number of the person to contact, and it is my sincere hope that all who read this will cut it out, sign your name on it, and mail it to:

Mr. G. A. Hall, Engr. Sec.
Water Pollution Control Board,
Ohio Dept. of Health
P.O. Box 18
Columbus, Ohio, (43216)
Phone, 1-614-469-4891

MRS. BERNICE W. PATRICK
820 St. George St.

P.S. All you boaters—individual and boat club members alike—should be most interested in this. Your boats are a greasy mess, and if you skiers have hit the water recently, you know what you look and feel like when you come up. Ugh!!

'Relax! If He Gets Away We Can Always Lock The Barn Door!'

Kissinger Chairs Policy Reviews

By Bruce Biossat

WASHINGTON — Though the undertaking is no secret, few people in official Washington realize how basic and wide-sweeping is the National Security Council's present review of U.S. defense policies and world commitments.

One source describes the studies as the most comprehensive rethinking in this field in the last 10 years.

From another quarter comes word that the debate within the White House fold has been long, occasionally stormy, but healthy. The chief orchestrator, of course, is President Nixon's foreign policy adviser, Henry Kissinger.

With his able, varied and unprecedentedly large NSC staff, he evidently has helped to stimulate an insatiable quest for information among the debaters. Rough papers at many levels of inquiry have been flying back and forth within Defense and State departments, and between there and the White House.

IN SOME instances, particular matters have been probed again and again as the White House reviewers have sought to broaden their grasp of a given weapons system or defense concept.

There is evidence that Defense Secretary Melvin Laird has devoted more of his time to this most significant review than to anything else that has engaged him since he took office.

Budget Director Robert Mayo, already tabbed by others as one of the President's least heralded influential associates, seems to have been in the thick of the debate at various stages.

Sources outside the White House say the reviewers are not trying to come up with a policy-and-commitment pattern which would fit only one projected defense budget level. Instead, it is said, the effort is to project differing configurations of commitment in accord with varying levels of expenditure.

Comprehensive as this continuing study is, it is about to be matched by another as Secretary Laird announces the naming of a blue - ribbon commission of outsiders — businessmen, scholars and others — to go over some of the same ground.

Tight security surrounds the substance of the lively White House debates, but sources have made clear that they range over ABM, MIRV and other projected new weapons systems, the prospective arms talks with the Soviet Union; the relative roles of the various arms of the defense establishment; the kinds of commitments the United States can reasonably be expected to assume in a world altered by the shattering impact of the Vietnam war; the bristling Sino-Soviet rivalry; the still unsettled Arab-Israeli conflict; the diminished military power of Western Europe, and so on.

ONE JUDGMENT which appears to govern the review is the notion that in the last two administrations U.S. policy-and-commitment was not fitted into a comprehensible whole platter but tended to be loose and disjointed.

No indication has been given as to how long the NCS studies may go on, but the addition to the review which will be provided by the presumably independent Laird blue - ribbon commission suggests that the inquiry is far from its end.

There is no word, either, as to what if anything will be released to the public in the way of a report. In the 1950s under President Eisenhower, much stir surrounded the so-called Gaither report, a study done by an outside group. Yet, though its essentials found their way into print, it was never released.

Conceivably, Congress may try to get into the act at some point, as may former defense and state officials. Former Undersecretary of State George Ball already has plunged in asserting that U.S.-Soviet superpower rivalry is still the operative fact in the world. Other knowledgeable types are sure to join in.

Screening Out The Sun

Preparations, concoctions, salves, liquid sprays, ointments and other medicinal unguents to reduce the pain of sunburn are legion. But they all are designed to be applied after the fact.

Now, at long last, a chemical formula has been devised which, when applied to the skin, will screen out the ultraviolet rays of the sun, thus providing protection from sunburn, skin cancer and aging of the skin.

The formula was developed at Massachusetts General Hospital and is reported to be effective for several hours regardless of whether the person using it is in the ocean, the desert or the mountains.

The research on the formula was done under a grant from the Army's Office of Research. It's effectiveness was tested for three years in the Arizona desert on volunteers from the state prison.

One of the medical researchers said studies have shown that skin cancer and aging of the skin result from exposure to sunlight. The new formula screens the sunlight so well that under normal conditions it even prevents tanning.

The formula, when it appears as a commercial product, should have a promising future for it will be welcomed by millions of sunbathing pleasureseekers.

An ounce of prevention is worth a pound of cure.

Timely Quotes

Four things I know not of. They are the way of a ship with the sea, the way of a man with a maid, the way of an eagle on the rock and the way of a minority leader under certain circumstances.

Musings From Max

By MARTIN MILLER

The Mafia may finally have overreached itself by getting involved in stock market manipulations. The Mafia has a ready-made market in its dope, gambling, extortion and other such criminal activities but when it fools around with Wall Street it is the big leagues where a lot of legal sharpies play for keeps.

A sheriff's report that a film company hired "Black Panther types" to perform in a Berkeley demonstration is very disillusioning. Those demonstrations always seemed real enough without hiring "extras" to liven them up. It's getting so you can't trust anybody anymore.

When we read about the former Mrs. Jacqueline Kennedy spending more than the President's salary of $100,000 a year on household expenses we immediately phoned for comment from Truman Twill, who was one of the original enchanted Jackie watchers. But he is still embittered over her marriage to Aristotle Onassis and all he had to say was, "For those of us who wondered why she married Onassis, now we know. She needed the money."

Incidentally, she isn't the first wife who spent more than her husband's salary. But $100,000!!!

For someone like me who is good at remembering faces but can't remember names, it was disconcerting to see the old "Golddiggers of 1935" on the late show with someone who never forgets a name OR a face. While we wracked our brain for names, we heard a constant stream of "Oh look, there's Frank McHugh. And that's Glenda Farrell, and that's Hugh Herbert and that's Grant Mitchell." Sickening.

A recent feature story about Beale st in Memphis, Tenn., reminded me that W.C. Handy is my all-time favorite composer. Maybe there is a generation gap. Who is Mason Williams?

Schools, churches and post offices have traditionally been considered most important for cities and communities but the seriousness of pollution of rivers, lakes and oceans nowadays makes it look like first priority should be given to sewage disposal plants and methods of eliminating harmful industrial wastes.

What's Going On Here Dept.?: A Russian ship delivered at Seattle 900 tons of sponge titanium, a strategic metal used by the U.S. in its defense and space programs.

That movie being made in Turkey where opera star Maria Callas' dress caught fire as she walked through flames sounds like the hottest thing in years in a press agent's dreams.

We never thought about it before and so we were surprised to learn that originally concert pianists always sat with their back to the audience until Fran Liszt (1811-1886) came along and gave piano concerts with his side to the audience because he was proud of his profile. History is full of fascinating tidbits.

Through The Years

THIRTY YEARS AGO — Mr. and Mrs. French Richardson of California traveled the farthest during the Calvin family reunion at the home of Mr. and Mrs. Frank Davis of near Clarkson.

The Rev. C. W. Lindeman, pastor of the Chester Church of the Nazarene, resigned because of ill health and left to reside in Denver, Colo.

TWENTY YEARS AGO — Lowell Sickler Jr. of Cass City, Mich., began his duties as physical director at the YMCA, succeeding Donald E. McGraw.

A farewell party was held for the Rev. C. E. Richardson, former pastor of the East Fairfield Methodist Church, and his family. He accepted th pastorate at Bowerston in Harrison County.

Mrs. Mary Price of Moore St. left for a two-week vacation with her daughter, Mrs. Martha Bryer, of New York City.

TEN YEARS AGO — Airman 2C Victor R. Cline of Globe St. was cited as "outstanding airman for the first six months of 1959" in the 70th Strategic Reconnaisance Wing at Jacksonville, Ark.

Mr. and Mrs. Denzil McCoy of W. Drury Ln. left for a month's vacation at Nova Scotia.

Odd Facts

Dwight D. Eisenhower was the first Republican president of the U. S. in the 20th century to win two successive presidential elections, and he was also the first president of the present 50 states.

The mechanical transportation system carrying the greatest load of traffic in America today is the electric stairway, or escalator, with more than 500 million up-and-down miles being traveled in the course of a year.

Costa Rica, in Central America, has the richest variety of flowering plants and ferns of any area of its size in the Western Hemisphere. Its known flora includes more than 6,000 species.

The commonest element in the universe is hydrogen, which has been calculated to comprise 90 per cent of all matter and over 99 per cent of matter in interstellar space.

Salineville Area News

Miss Myrtle Strabley 679-2266

SALINEVILLE — Al Cunningham, new commander of American Legion Post 4 of East Liverpool, was guest speaker when John Adams Post 442 met here.

Comdr. Stanley Fitch presided.

Cunningham reviewed ways to promote the Legion movement.

A discussion was held on recent improvements at the post home, including paneling in the lounge and two new air - conditioners. It was announced that the post needs one member to meet its annual quota.

Rick Kearin, a student at Southern Local High School who was sponsored by the Legion to the annual Boys Buckey State, will speak at the next meeting.

Mrs. Judy Bryan of RD 1 was hostess to Ruth Rachel Circle of the Calvary United Presbyterian Church.

Mrs. Nell Daley led devotions.

Mrs. Meryl Knox conducted the Bible lesson and Mrs. Jeanie Smith the mission topic.

Lunch was served by Mrs. Bryan, assisted by Mrs. Smith The July meeting will feature a joint dinner with Rebecca Circle, the place to be announced.

Spec. 5C Keith Strabley, wife and children of Texas have concluded a furlough with his parents, Mr. and Mrs. Tom Strabley of W. Main St. Mrs. Tom Strabley and sons accompanied the Keith Strableys to Texas for a visit and then returned home by plane.

Recent guests of Mr. and Mrs. Charles Maple of Academy Ave. included Mrs. Edna Powell of Salem, W. Va.

Mrs. Violet Williams of Akron has concluded a visit with friends here.

Roberta Kellogg was named queen of the month when the Salineville Slim Tops met Wednesday night. Jean Owen was runnerup.

Queen of the week was Bernice Lewis. Mrs. Lewis also was recognized for having kept her weight down for a designated period of time. The "pig" went to Janice Reeder.

Ila Oldfield and Delores Thorp served luncheon.

The group will meet Wednesday night at 6:30 at the Legion hall.

Irondale Area News

IRONDALE — Mrs. Clyde J. Russell of Saline St., accompanied by her daughter, Mrs. Scott Patton and children of Columbus, spent a week with relatives in Olive Hill, Ky.

Mr. and Mrs. Kent Lowry of Worthington, Ohio, have returned home after visiting his grandmother, Mrs. Olive Frampton of Saline St. Mr. and Mrs. James Hamilton and children of Camillus, N. Y., are visiting Mrs. Frampton.

Mrs. Rose Crayton and Ozell Diggs of Pittsburgh were recent guests of Mr. and Mrs. Ed Parker.

Mr. and Mrs. John Porter have concluded a vacation with relatives in Hamilton and Middletown, Ohio, and Gaithersburg, Md.

Mr. and Mrs. Scott Porter and daughter, of Hamilton are visiting his parents, Mr. and Mrs. John Porter.

Mrs. Lena Butler and Miss Ina Butler are visiting Mrs. George Massey and family of Knoxville, Tenn., and Jack Butler of San Antonio, Tex.

Recent guests of Mr. and Mrs. Clyde Russell Sr. were Mrs. Bessie Briceland of Cleveland and Mrs. Frances Bray of Zephyrhills, Fla.

Mr. and Mrs. Harrison Fitch and son of Lunenburg, Mass., are visiting her mother, Mrs. Margaret Hart.

The Rev. and Mrs. Robert Hutton of Cumberland, Ohio, and Mrs. Mary Brown of Canton visited recently with Mr. and Mrs. Elmer Golden of Rural Way.

Lockheed Develops Computer Landings

LOS ANGELES (AP) — The Lockheed L1011 jet liner slated to begin service in 1971 will be controlled by computers except during takeoff and landing, the company says.

Lockheed-California Co. engineers say onboard and ground computers will guide the big planes most of the time in the air.

A Lockheed spokesman said Sunday the system has been under study for two years and potential buyers of the L1011 have said they want it. The system probably will be offered as an option costing about $250,000, the company said.

Rx your Pharmacist corner

By George Manolakis R.Ph.

The Lockjaw Sneer . . .

Stepping on rusty nails, does not cause Lockjaw . . . The disease is caused by a germ that enters the bloodstream through a wound.

The germ (Clostridium Tetanus) thrives in soil containing animal waste—like garden manure. As it enters the body, it produces a poison (Toxin) damaging Nerve and Muscle tissue.

Around the face, the jaws lock. Lips draw backwards, baring teeth, as in a Sneer—while the body writhes in spasm and convulsion.

The chances for survival are slim . . . The best protection is by Immunization, starting with infants, and subsequent booster shots, every 5 to 10 years.

In the face of confusing claims about "discounts", and other merchandising shenanigans, chances are you'll always get MOST for your money, where you can ALWAYS depend on getting Topmost quality and Fair Prices.

Prove it to yourself. Come visit CITIZENS WALGREEN AGENCY, Carolina At Fifth, Chester, W. Va.

Winners Set For Parade

Prize winners have been announced in the fourth annual Children's Parade held Friday at New Manchester.

They include: Best float, Christian church; best coaster wagon, Sherri Allison; best horse and rider, Todd Jones; best girls' tricycle, Marcy Brant; best boys' tricycle, Jeff Owings; best costumed group, Meyer children; best individual costume, Mark Davis; best marching group, Blue Birds; best girls' bicycle, Mary Ann Little, and best pony and cart, Cathy and Chris Smay.

Robin Robb, daughter of Mr. and Mrs. William Robb, reigned as queen and Rodney Tate, son of Mr. and Mrs. Grover Tate as king.

Raymond Ewing was master of ceremonies. Judges were Miss Virginia Marshall of New Cumberland, Miss Sara Thomas of Chester and Harold Proudfoot of Weirton.

Approximately 800 viewed the parade. There were 70 entries.

The parade committee included Mrs. Paul Huff, Mrs. Earl Priest, Mrs. Stewart Mayhew, Mrs. Jay Allison and Mr. and Mrs. William Owings.

Girl Offers Advice For Scaring Bears

LOS ANGELES (AP) — A 9-year-old girl lost for two days among the giant trees of Sequoia National Park is home in excellent condition, and with advice on scaring bears.

Irene Hofke wandered from her family's campsite Thursday and was found two miles away Saturday night.

"I wasn't hungry at all," she told newsmen. "I was just hot from walking and got really thirsty." She said she drank from streams.

Afraid? "No. I knew my mother would call the ranger because she gets real worried."

The one troubling moment: "I saw this bear coming straight at me—a big, fat bear. I started yelling and shaking a tree, and he left."

Rare Crane Hatched At San Antonio Zoo

SAN ANTONIO, Tex. (AP) — Firecracker, the world's newest addition to the whooping crane population, was viewed Sunday by hundreds of people who trooped by its cage in the San Antonio Zoo's birdhouse.

Firecracker was hatched Saturday and boosted to 69 the known whooper population.

Zoo spokesmen said the offspring of Rosie and Crip probably would be moved to the Patuxent, Md., wildlife refuge where the U.S. Fish and Wildlife Service has 12 of the young birds.

Zoo attendants said they would have to wait awhile to determine Firecracker's sex.

Sulfuric acid is another name for oil of vitriol.

ANN LANDERS

To The Man I Married:

By Ann Landers

Dear Ann Landers: Please print this, but no clue as to where it came from. My letter could have been written by at least 5 million women. Let their husbands guess.

To the Man I Married: You have accused me of cheating on you. I've denied it because you have no proof and I figure nothing can be gained from a confession. But now I'm ready to admit that your suspicions are right. I've been seeing another man for almost a year. Here's why:

The romance went out of our marriage long ago. You decided that frills, such as kindness, consideration and decnet manners, were a waste of time. You let me know my feelings didn't count. If you chose not to come home for dinner, I was expected to "catch on" by 9 p.m. and eat alone.

When I found lipstick on your shirts I was supposed to believe it was red marking crayon. You refused to go to church with me because you said you could worship God better on the golf course than with a bunch of hypocrites.

It's been years since we had a real conversation. You're either too busy or too tired to talk. You've made me feel like a drag, a bore, a nusiance and, finally, a nothing.

Last year I met a man who made me come alive after I was sure I'd died inside. He finds me interesting and attractive. His marriage is as bad as mine, but he's trapped, as I am, by children, social pressures and financial obligations.

So, my dear husband, I'm not leaving you, but I am cheating every chance I get and it's keeping me sane. Furthermore, I'm healthier and happier than I've been in a good many years. — YOUR WIFE.

-:-

Dear Wife: You didn't ask for advice so I won't offer it. Here's your letter with no comment.

Bad Debt

Dear Ann: A few years ago I loaned a friend $200. He promised to repay me with interest when he was graduated from college.

A few months later he was called into the Army. I felt that so long as he was in the service I would not remind him of his obligation.

When he returned he avoided me. I ran into him at the home of a mutual friend. He was embarrassed and said, "I haven't forgotten about the loan." I replied, "Good! I can use the money."

That was a year ago and I haven't seen a dime. Even $10 a month would look good. What should I do? — SHORT.

-:-

Dear Shorty: Write or phone the fellow and ask how soon he can start to make monthly payments against the $200. As a matter of integrity he should take steps to honor the commitment, no matter how modest the payments.

Low Grade

Dear Ann: Your answer to A.C., the student, was lousy. You told him to "keep plugging away." Why? Are grades THAT important? I know at least a dozen squares who've nevre missed the dean's list but they are ignorant when it comes to things that matter. You boobed, Ann. — ADAM'S APPLE.

-:-

Dear Ad: A.C. was on the verge of flunking out. I advised him to keep plugging. This was boobing?

Confidentially

Confidentially to A Faithful Reader: You realize, of course, the problem is 90 per cent in her head. The operation is a simple one. She could have had it years ago. Any doctor will be happy to discuss it.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a self-addressed, stamped envelope.

HINTS FROM HELOISE

Huff And Dust Away

DEAR LADIES: Now don't laugh at me. Let's all laugh together!

A few months ago a woman wrote that she hated to dust, especially bric-a-brac shelves, books and collections.

Heloise

She said she took her hair dryer, which had a hose, and with the cap removed, turned it on and litterally BLEW the dust off all the tiny things on her shelves.

Now you can laugh all you want to, but I have tested this for months, and it actually works!

Here's the secret:

Always BLOW this dust off bookshelves BEFORE you start to clean up a room. Then you can take up the rest of the dust with your vacuum.

Here's another tip I learned:

If you don't have a hair dryer, use the blowing end of your vacuum cleaner hose — without any attachments. And just blow away without moving any of the articles.

Try SUCKING most of the dust up first, then reverse the tube to THE BLOWING END OF THE VACUUM AND BLOW THE REST OF THE DUST OFF.

Then reverse the tube again and suck up some more of that loose dust. It works like magic!

And our thanks to the wonderful housewife who wrote this in. May God bless her always. We sure do.

HELOISE.

DEAR HELOISE: Cut off the tops of one large bleach bottle one medium-size bottle and one small one.

This makes three nice mixing bowls when you're out camping. They can be used several times and discarded, or can be used later for leftovers in the refrigerator.

MRS. M.M.

Letter Of Thought

DEAR HELOISE: There must be 26 hours a day somewhere in this world . . . but I can't find the other two!

Where are they?

HOUSEWIFE.

-:-

I don't know, pal. I'm still looking for 'em.

And if anybody can find 28, let us know. We need that even more.

HELOISE.

DEAR HELOISE: When cooking supper every night seems to get you down, at least get dessert and a salad in the ice box before noon.

It is amazing how easily the rest comes out with this head-start.

Even if it's only a simple pudding or aspic. Begun IS half-done.

Keep up the great "Momma's Helper Column!"

MOTHER OF FOUR.

DEAR HELOISE: Many families do a lot of traveling while on vacation. If they have small ones along, it is a good idea to have each child wear an identification tag on a pin or chain.

These can be either metal or plastic, with the name of the child on one side. Cover the other side of the tag with adhesive tape on which is printed the name of the motel, campground, etc., along with any identifying location number necessary. This tape can be changed easily from one stopover to another.

This thought came to my mind after three agonizing hours of worry and fright when our small son wandered away while we were making camp near a lake. Each of us thought another member of the family had him in tow, and he was long-gone before we realized our mistake.

THIS HINT MIGHT SAVE

This column is written for you . . . the housewife and homemaker. If you have a hint or a problem write to Heloise in care of this newspaper. Because of the tremendous volume of mail, Heloise is unable to answer all individual letters. She will, however, answer your questions in her column whenever possible.

Needle Pattern

By LAURA WHEELER

Crochet jaunty, A-shape coat and hat in vivid wool.

Smart school partners! Crochet coat from neck down of knitting worsted. Has double crochet ribs on single crochet ground. Pattern 618: Sizes 2-4; 6-8; 10-12 included.

Send 50 cents in coin for this pattern to Needlecraft in care of the East Liverpool Review, 45, Pattern, P.O. Box 161, Old-Chelsea Station, New York 11, N.Y. Print plainly your name, address and the patteern number.

SOME OTHER FAMILY FROM SUFFERING THE SAME AGONY.

MRS. C.O.B.

DEAR HELOISE: Recently a lady wrote to you about saving the liquid from cans of fruit to make juice drinks.

Well, we save the liquid from jars of maraschino cherries to make milkshakes.

We use about a tablespoon of juice for each shake and they're absolutely delicious.

LYNDA.

The DOCTOR Says

Age Varies In Menstruation Start

Q — My daughter, 15, has not begun to menstruate. Is this abnormal? Should anything be done?

Dr Brandstadt

A — There is a wide variation in the age at which girls start to menstruate. Many do not start until they are 16. This in no way affects their ability to have children later.

If your daughter has not started to menstruate by the time she is 17, she should be examined for evidence of a glandular deficiency.

—:—

Q — My daughter, 15, has had severe cramps and nausea with her periods for the last three years. The doctor gave her some pills to take but these have not helped. What do you advise?

A — Menstrual discomfort or dysmenorrhea is very common. In most cases aspirin is helpful. Edrisal, a prescription drug, is a little stronger and may be needed in some cases.

Girls who are athletically inclined and those who have been taught to look upon menstruation as a normal physiological process rather than a "curse" seem to have less of this sort of trouble than the others. In any case, the discomfort will gradually decrease over the years.

—:—

Q — Our son, 17, recently had a partial collapse of his left lung while playing football. After recovery, the doctor said he could play footbal again. A few months later, the collapse recurred. The doctor said it was due to overwork and that the next time it would be necessary to operate. Our son has chest pains whenever he overexerts. Shouldn't he be restricted in his work and play?

A — In some persons the walls of the small air sacs near the outer surface of the lungs are weak and a fit of coughing, sneezing or straining may cause a blowout, accompanied by a partial collapse of the lung. The victim should avoid the strains that precipitate a collapse but, if he has three spontaneous attacks, an operation to remove the weak spot is advisable.

—:—

Q — What is a greenstick fracture? What treatment is best?

A — This is an incomplete break that is split along only one side of a long bone — like trying to break a sapling over your knee. It is seen only in children. The only treatment required is rest — no weight bearing if a leg and a sling if an arm is involved—for four or five weeks.

—:—

Please send your questions and comments to Wayne G. Brandstadt, M.D., in care of The Review. While Dr. Brandstadt cannot answer individual letters, he will answer letters of general interest in future columns.

Man, 60, Kills Wife

COLUMBUS, Ohio (AP) — Walter L. Marshall and his wife Lillian, both 60, were shot to death in their home here Sunday in what police said was a murder-suicide.

Police said Marshall, who apparently had been despondent over ill health, left a note saying he did not want his wife to suffer after he was gone.

55 Arrested During Resort Disturbance

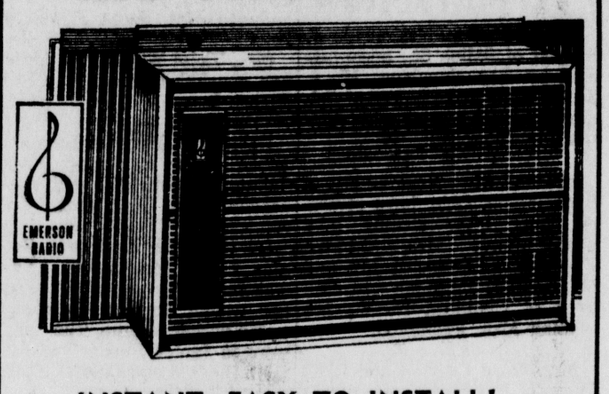

RUSSELLS POINT, Ohio (AP)—Drinking youths kept up tradition in this Indian Lake resort town, hit nearly every Fourth of July by youthful rioting.

A disturbance late Friday night and early Saturday resulted in some minor injuries and about 55 arrests. Sheriff's deputies were the targets of bricks and cans thrown by youths, but nnoe was hurt.

Today In Washington

WASHINGTON (AP) — The Agriculture Department has suppressed its own critical reports of meat-processing plants and is failing to push for compliance with meat inspection laws, says consumer advocate Ralph Nader.

In a letter to Secretary of Agriculture Clifford M. Hardin—spokesmen said Sunday it had not been received—Nader hit strongly at the Department's consumer and Marketing Service and its chief, Dr. Robert K. Somers.

Nader said Somers has in his possession a report written five weeks ago saying some 150 meat-processing plants are currently marking meat with a federal stamp and shipping it across state lines even though none of the plants inspected passed federal standards.

"This means the law is being violated, that consumers are being misled by the federal stamp and that the Department has not been doing its job," Nader said. "Yet Dr. Somers keeps the report secret."

Nader said Somers' division has failed to insure the states will comply with the Wholesome Meat Act of 1967 by the December 1969 deadline. The act seeks inspection practices at least as tough as federal standards.

Nader said the Agriculture Department is generally "far more solicitous of packer protection than it is consumer protection."

WASHINGTON (AP) — Business spending is a principal factor in the slow progress in checking inflation says Dr. Arthur Burns, President Nixon's chief economics adviser.

In a copyright interview in U.S. News & World Report magazine, Burns said:

"We've made some progress but I'm a little disappointed we haven't made more. I had expected more recognition on the part of the business community of the need to curb inflation and of the government's determination to bring about this result.

"What concerns me particularly is the continued willingness of businessmen to expand capital-expenditure programs in the face of anti-inflation policy the government is pursuing.

WASHINGTON (AP) — Now there is a sort of "dial a disturbance" service available.

The Pentagon provides a recorded message—dial OX 70411—telling of any riots that may be going on at the moment in the United States.

The message is intended for "persons in the Pentagon with an interest in civil disturbances," Pentagon spokesmen say. The status report originates with the Pentagon's Civil Disturbance Directorate.

This weekend the message was: "No major or minor civil disturbances have been reported in the past 24 hours. No requests for military assistance have been received."

Capital Footnote

The Department of Housing and Urban Development has let a $160,000 contract to an acoustics engineering firm to study ways to control noise levels in households.

3 Astronauts Prepare For Trip To Moon

CAPE KENNEDY, Fla. (AP) — Relaxed after a July 4th weekend with their families, the Apollo 11 astronauts today begin their final days of training for next week's blastoff toward a landing on the moon.

Neil A. Armstrong, Edwin E. Aldrin Jr., and Michael Collins planned a full day of sharpening skills in trainer spacecraft at Cape Kennedy following an early morning flight from their Houston, Tex., homes.

The three moonmen spent the holiday with their families near the Mannned Spacecraft Center at Houston discussing the dangers of landing on the moon.

"They want to know every detail of what we're going to do and how we're going to do it," Armstrong said in an interview.

Aldrin said his wife Joan "perhaps has more concern for my peace of mind than for any danger that might befall me."

Collins, who will orbit the moon alone and act as lifeguard for his two colleagues exploring below, said his three children—Kathleen 10, Ann 7, and Michael 6—"are really too young to appreciate the implications of this flight.

"I got the three of them together and tried to explain the historic import. They sort of listened and nodded and only one question from my boy who wanted to know, 'Who's driving?'"

At the launch pad, crews today planned to check for leaks on spacecraft engines. Sunday, they finished repainting the outside of the Saturn 5's upper stage after the old coating—needed to protect supercold fuel from the sun—was found to be peeling.

Apollo 11 is to blast off at 9:32 a.m. EDT July 16, with Armstrong and Aldrin landing on the moon July 20. The next day, Armstrong is to leave the lunar module landing craft and make man's first step on the lunar crust.

Due For Hearings

Ohio Senate Presented Education-Tax Measure

COLUMBUS, Ohio (AP)—The administration's $1.8 billion education - tax bill, already a campaign issue, went to the Ohio Senate today, where hearings are expected to start sometime this week.

The measure, which allocates funds for educational programs from kindergarten through college, won House passage Thursday.

The bill provides an additional $132 million over the next two years from new state taxes on cigarettes, public utilities and corporation francise.

It allocates $1.3 billion for public schools and special institutions, $447 million in student subsidies and $342 million in capital improvements for the 11 state universities and the one state-affiliated university.

While nearly two-thirds of the Democrats in the House voted for the bill, a party leader declared the measure to be "a Republican tax bill and nothing more."

Minority leader John C. McDonald of Newark admitted that "pork in this barrel" attracted some Democratic votes. "But it is not a bi - partisan bill," he added.

The presence of State Democratic Chairman Eugene P. O'Grady at two party caucuses provided added political flavor to the bill.

Some Democrats in the House felt his presence was out of place.

"This whole game is politics," said one irked Democrat, "but it is difficult to equate the top political leaders of your party naming counter moves to an education bill."

Five amendment proposals that came out of the caucuses were submitted and all were rejected by the majority Republicans.

One proposal called for an increase in school subsidies, a goal of education lobbyists and university representatives who will go to work on senators this week.

The Ohio Board of Regents says tuition for all graduate students would "absolutely have to go up" by about $300 a year if state universities don't get more subsidy money.

State School Supt. Martin Essex said the bill, as it now stands, will not relieve the need of school districts to seek additional property tax levies.

He predicted a "concerted effort" by Ohio educators to persuade legislators to increase the school foundation support per classroom unit.

The bill hikes the per unit allowance from $2,425 to $2,775, but Essex said many educators feel this increase is not adequate.

U.S. Wants To Bypass Korea Talks

UNITED NATIONS, N.Y. (AP) — The United States is trying to get the U.N. General Assembly to forgo its usual debate on Korea during the coming session which starts Sept. 16, diplomatic sources said today.

The U.S. delegation reportedly has told representatives of Communist countries that it will not insist on discussing the latest report of the U.N. Commission on the Unification and Rehabilitation of Korea, provided the Communists agree not to bring up the demands they usually make when such a discussion begins.

The Communists have urged in recent years that the commission be dissolved, and Cuba placed an item on the assembly's 1968 agenda stating that there was a "need to put an end to the discussion in the United Nations on the unification of Korea."

The assembly has held a debate on Korea in every session since 1947 except those of 1964 and 1965. The usual starting point of the debate had been the commission's annual report, but this year it is not listed as one of the 95 topics on the provisional agenda distributed last week by Secretary-General U Thant.

Members of the commission are Australia, Chile, the Netherlands, Pakistan, the Philippines, Thailand and Turkey.

Both North and South Korea have been accusing each other recently of increasing incursions and attacks across the demilitarized zone. Informants said an assembly debate probably would result in the United States and the Soviet Union repeating such charges, thus hampering efforts to improve their own relations.

Sedan Damaged In Hit-Skip Case

An East End man's parked 1964 sedan was damaged in a hit - skip mishap Saturday at 10:58 p.m., police reported.

The crash damaged the left rear of the auto owned by John Weyand of 457 1st Ave., which was parked in Fox Alley 40 feet west of 1st Ave. Weyand gave officers a description of the auto and some of the digits in the license number.

Meanwhile, a 1965 sedan driven by James E. Schneider, 32, of 834 Riverview St. was damaged on the left side Saturday at 1 p.m. when it struck a sewer at Riverview St. and Illinois Ave. Schneider told officers he was traveling west on Illinois Ave. and pulled to the left in an attemp to avoid an auto traveling south on Riverview St.

Body Recovered

COVINGTON, Ky. (AP) — The body of Estel Reed, 29, Cincinnati, was found floating in the Ohio River early Sunday at nearby Dayton, Ky., where he drowned Friday.

A somelier is a wine steward.

The Social Notebook

The meeting of the 53 Club scheduled for Tuesday at the home of Mrs. Helen Krepps of the Irish Ridge Rd. has been canceled. The next meeting will be in August.

※ ※ ※

Mr. and Mrs. William D. Kidder Sr. of 1572 Etruria St. have returned home after visiting in Silver Springs, Sarasota, Miami Beach and Ft. Lauderdale, Fla.

※ ※ ※

Plans for a picnic Sept. 4 were announced at the meeting of the National Ladies Auxiliary of Joe Connelly Barracks 8, World War I Veterans, Thursday night at the DAV hall.

The event will be held at Roadside Park in Wellsville. Members of the barracks will be guests.

Mrs. Jane Plantz, president, conducted the meeting and Mrs. Lena Liberatore, acting chaplain, gave opening prayer.

Lunch was served 18 by Mrs. Amy Watson and Mrs. Frances Shawke, hosesses. Fred Neiser offered the invocation.

The next regular meeting will be Aug. 7 at the DAV hall, with Mrs. Nell Persohn and Mrs. Vicki Willis hostesses.

Wellsville Society

Miss Ruth Urie
532-2288

The prize for being the oldest person present during the 24th annual reunion of the David Williams family July 4 at Minerva Park went to Alex Jenkins, 76, of Wellsville.

Jodi Lindersmith, 2-year-old daughter of Mr. and Mrs. Gary Lindersmith of Hanoverton, was the youngest.

Ernest Williams of Salem, president, conducted business, during which the following officers were elected: Lloyd Hays of Minerva, president; Wilbur Hays of Highlandtown, first vice president; Robert Williams of Lisbon, second vice president; Mrs. Kathy Clapsaddle, secretary - treasurer; Mrs. Marie Jenkins of Wellsville, historian, and Mrs. Ethel Strudthoff of Lisbon, Flower chairman.

A basket dinner at noon was followed by a ball game, swimming and recreation for the children. Some 75 attended.

Personals

Mr. and Mrs. Phillip Hoffman and son, Craig of Des Moines, Iowa, spent the holidays with his parents Mr. and Mrs. Bruce Hoffman of 816 Broadway.

Mrs. Theresa Rubino of 1021 Center St. is visiting her son and daughter-in-law, Mr. and Mrs. Michael Rubino, and infant son of Dover.

Crash

(Continued from Page 1)

residents heard the plane just before it struck the ground in a pasture.

"It was running terribly low and the engines were wide open," the sheriff said.

The sheriff said the airpane did not burn although there was fuel spilled on the ground.

"It looked like to me it exploded from the inside," the sheriff said. He described the wreckage as "bolts and nuts."

There were billfolds and other papers at the crash site but identities were withheld. The sheriff said at least one of the victims was an Army officer.

A leguminous plant is a member of the bean family.

Slaying

(Continued from Page 1)

was found by a neighbor and fellow student. Judith Rubin, who shared a kitchen with the victim.

Miss Rubin reportedly heard the gruff voice of a man, followed by shots, and hid in her own room until he left.

Miss Phillips, shot in the head and one hand with a .22-caliber pistol, was clad in blouse and slacks.

The Detroit News said Bishop was sentenced June 9, 1959 from Detroit Recorder's Court to 10-20 years on a rape conviction.

The six young women previously killed and the dates their bodies were found included Mary Flexzar, 19, an Eastern Michigan University coed at Ypsilanti, Aug. 7, 1967; Joan Schell, 20, an Eastern Michigan coed, July 5, 1968; Jane Mixer, 23, a Michigan coed, last March 21; Maralynn Skelton, 16, a high school dropout from Romulus, Mich., March 25; Dawn Basom, 13, Ypsilanti junior high school student, April 16 and Alice Elizabeth Kalom, 21, a Michigan coed, June 9.

City Man Cited In Area Mishap

Charges of failure to stop within the assured clear distance were filed against a city man Sunday morning, the result of a two-car collision west of Wellsville which demolished a travel trailer and motorcycle. No injuries were reported.

The Ohio Highway Patrol at Wintersville said the accident occured on Route 7 south of Wellsville when a 1968 sedan driven by Morris E. Briggs, 56, of 162 Fawcett St. struck the rear of the travel trailer towed by a 1968 sedan driven by Harold Pierce, 54, of Ford City, Pa. Both vehicles were southbound at the time, patrolmen said.

Briggs' auto was damaged in the front, and the trailer and an attached motorcycle were demolished, the patrol said.

The human skeleton has about 200 separate bones. That is, a human being usually builds that many bones out of cartiage as he develops from infancy to maturity. Sixty - four of these bones are in the hands and arms alone.

SUSAN KAY GOODLIN
Will Wed Wednesday.

Susan Goodlin To Be Married In Church Rites

Mr. and Mrs. James L. Goodlin of Hookstown have announced the engagement and approaching marriage of their daughter, Miss Susan Kay Goodlin, to Bobby Ray Chamberlain, son of Mr. and Mrs. Harless Chamberlain of 7th St., Midland.

The bride - elect is a 1969 graduate of South Side High School. Her fiance, a 1969 graduate of Lincoln High School, is employed by Johnson's Towing, Inc.

The open church wedding will take place Wednesday at 7 p.m. at the Georgetown Free Methodist Church. A reception will follow in the Shippingport fire hall.

Auto Abandoned As Pair Escapes Chase By Police

Police are seeking to trace ownership of a quantity of heavy cable found in an auto abandoned on Thompson Pl. early Saturday morning by two men who fled on foot from a pursuit by two cruisers.

The car was pursued about 2:40 a.m. by Patrolmen David Huffman and Joseph Bates in two cruisers. Two occupants abandoned the vehicle and fled in opposite directions after reaching the deadend.

A mud-covered, shoeless man found a short time later hitchhiking on the Pennsylvania Ave. "Hill Rd." was booked into jail on an intoxication charge but refused to discuss the incident. A man to whom the car was registered reported the vehicle had been stolen. Officers removed the wire to headquarters.

Hand - raising as a formal greeting originated in the days of the caveman, who did this to prove to another that he carried no weapons. Later in history an armored knight raised his right arm to lift his helmet visor and to show friendship by keeping his sword hand away from the weapon. Before the 19th century, British soldiers saluted by tipping their hats. In the modern U.S. military salute, the right hand is raised smartly so the forefinger touches the forehead just above and to the right of the right eye, thumb and fingers extended, forearm and wrist at a 45-degree angle. This salute, with variations, is common among military forces around the world.

Health Clinic Selects New Medical Director

Dr. David C. Norris has been employed to succeed Dr. Stuart Hirsch as medical director and psychiatric consultant at the Hancock - Brooke Mental Health Service Clinic, located in Weirton General Hospital.

Dr. Norris, 42, is a graduate of Penn State University and Temple University School of Medicine. He completed his residency in psychiatry at the Western Psychiatric Institute and Clinic, a facility of the School of Health Sciences, University of Pittsburgh.

He is a member of the Allegheny County Medical Society, Pennsylvania Medical Society and American Medical Association.

As a consultant, he will be working with a team of trained professionals in providing mental health care for the public. Open six days a week, the clinic offers the following: Outpatient service, in-patient service, psychiatric evaluations, psychological testing, education and consultation services, diagnostic evaluation and referral services.

MR. DAVID NORRIS
Begins New Duties.

Dr. Norris will be in the local office each Wednesday. He maintains his own psychiatric office in Pittsburgh. He and his wife and three children reside in Glenshaw, Pa.

Resident Of New Mexico, Dale E. Craven Are Wed

Miss Velma E. Connell, daughter of Mr. and Mrs. Troy H. Connell of Socorro, N.M., became the bride of Dale E. Craven, son of Mr. and Mrs. H. Dale Craven of 1861 Idaho Ave., East Liverpool, June 24 at 2:30 p.m. in the First Presbyterian Church at Socorro.

The Rev. John Browne officiated for the double-ring ceremony. A half - hour recital of organ music preceded the ceremony. Bouquets of pink and white flowers decorated the altar. The family pews were marked with satin bows.

ESCORTED to the altar by her cousin, A. G. Scarborough, the bride wore a full-length gown of lace over white satin in an Empire style. The fitted bodice was high-lighted with pearls and featured a scalloped neckline and long sleeves.

Her floor - length scalloped mantilla veil was appliqued with roses and held in place by a dainty tiara. She carried a bouquet of white mums accented with pink.

In observing the traditions, the bride wore a pearl necklace, the gift of the bridegroom, and carried a coin in her shoe.

Mrs. Scarborough was matron of honor and Miss Page Nevergold was bridesmaid.

They appeared in full-length, V-necked, fitted gowns of rose pink satin. Pink bows held their net headpieces in place. They carried Colonial bouquets of pink and white roses.

Miss Sharron Pearce, a cousin of the bride, was flower-girl. She wore a floor-length dress of white satin with mantilla veil and carried a basket of assorted flowers.

James Sunderland of the White Sands (N.M.) missile range served as best man. Ushers were David Bradbury of White Sands, Wayne Connell and Edward Rinker. Bruce Connell, a cousin of the bride, was ringbearer.

The mother of the bride chose a pink lace dress with white accessories. The mother of the bridegroom was attired in a beige lace ensemble with apple green accessories. Both mothers wore corsages of white mums.

A RECEPTION followed in Fellowship Hall at the church, which was decorated with pink mums. The buffet table was covered with a lace cloth. The centerpiece was a four-tier wedding cake encircled with an arrangement of pink and white roses and angels topped with a miniature bridal couple.

The guest book was attended by Miss Kayleen Pearce, cousin of the bride.

The bride and bridegroom presented their attendants with gifts of jewelry.

Following a honeymoon in Old Mexico, the bride will reside for the summer with her parents in Socorro. For traveling, she wore a bright blue suit with white accessories and a corsage of white mums.

The bride is a 1968 graduate of Socorro High School.

The bridegroom, a graduate of East Liverpool High School, is serving with the Army and presently stationed at the White Sands range.

The bride was feted with pre - nuptial parties by Mrs. Peace and Miss Nevergold.

Done Little To Date

Congress Faces Major Tasks In Months Ahead

By WILLIAM F. ARBOGAST
Asociated Press Writer

WASHINGTON (AP) — The 91st Congress, which has little to show for its first six months, returns to work today after its fourth recess this year.

Its major tasks lie ahead, and there are enough of them to keep the legislators busy until Christmas.

Congress' official "Status of Major Bills" lists only one measure enacted into law. That increased the national debt limit.

Not a single regular annual appropriation bill providing funds for the fiscal year that started July 1 has been enacted. There are 13 of them. Only three have passed the House.

Only three times since 1960 has Congress failed to enact at least one of the money bills by the time the new fiscal year started.

Federal agencies whose funds are involved have been given temporary and limited financing until Oct. 31, when another stop-gap measure may be required.

Two major bills have passed the House only but have not emerged from Senate committees. One provides for federal aid for elementary and secondary education. The other continues the income surtax for another year.

The extension bill does not include any major tax law revisions, but the Senate may add them to the House bill.

The House Ways and Means Committee has promised to come up with a separate tax revision measure before a three week recess starts Aug. 13. It is expected to close loopholes allegedly of benefit only to wealthy individuals and big business.

The tax fight may be rivaled for bitterness only by a decision facing Congress on deployment of an antiballistic missile system.

The missile defense battle is scheduled to start early this month in the Senate and may tie up that body for weeks.

Stalemated in Senate or House committees are bills dealing with crime curbs, reorganization of the Postoffice Department, Congressional reorganization, extension of antipoverty programs, and electoral college reforms.

A bill to continue restrictions on cigarette advertising has passed the House only.

The Senate, however, has ratified the nuclear nonproliferation treaty. No House action is required.

Eight vice presidents of the United States have succeeded to the presidency upon the death of the presidents under whom they served. These were John Tyler, Millard Fillmore, Andrew Johnson, Chester Arthur, Theodore Roosevelt, Calvin Coolidge, Harry Truman and Lyndon Johnson.

Aspirin was not introduced into medicine until 1899, although it comes from a family of herbal remedies that were used back in the Stone Age.

FAMOUS GOLFING PARTNERS. President Richard M. Nixon rides in a golf cart with partner Jackie Gleason during a game at the Country Club in Mianmi, Fla., Sunday. Other players were Tony Penna, a former pro golfer, and Nixon's son-in-law David Eisenhower.

Vietnam

(Continued from Page 1)

U.S. headquarters reported an Air Force F100 fighter-bomber and an Army OH6 light observation helicopter were shot down by enemy gunners over the weekend. One American was wounded. It raised to 2,830 the number of American helicopters and to 2,579 the number of fixed-wing aircraft lost in the war.

The U.S. Command also reported 15 overnight rocket and mortar attacks compared to 43 Sunday. Eight of these were termed significant and five hit U.S. bases, spokesmen said, adding casualties and damage were light over-all.

We haven't come up with an analysis yet," said a U.S. spokesman. Referring to the 43 shellings Sunday, the heaviest in three weeks, he said there was no appreciable pattern no sign of any followup troop movements,"

Noting that all action was confined to local force Viet Cong guerrillas, the spokesman added: We had been forecasting a possible renewed offensive about July 15. Perhaps this was the local forces beginning to prepare for that, but we don't know."

U.S. military analysts say captured enemy documents and prisoners indicate a series of coordinated rocket, mortar and ground attacks might be launched sometime this month by main force North Vietnamese and Viet Cong troops.

Last week war action had dropped t its lowest level in more than a year. But enemy gunners shattered the lull with their 43 rocket and mortar attacks, hit Saigon with two rockets for the first time since June 17, and sank a Nationalist Chinese merchant ship anchored in the Saigon River eight miles outside the capital. The 3,400-ton vessel was hit by a mine.

Stamp News

Stamps now have status.

An elegant gallery devoted to the exclusive display of stamps and coins will be open to the public in New York City. Owned and operated by the famed Harmer, Rooke & Co., the new gallery will exhibit more than $2 million worth of rare stamps and coins. Each rarity will appear in a gem - like museum setting and will carry a price tag.

Said Olin Tice, president of Harmer, Rooke Galleries, "We hope to make this an irresistable showplace for all, even those with a mild interest in stamps or coins. They may go to the Metropolitan to see Rembrandts, but they will come here to enjoy the philatelic and numismatic arts."

TO HONOR THE 100th anniversary of the birth of Johan Hjort, famous zoologist and oceanographer, Norway has issued two new stamps. will depict a likeness of Hjort whose marine research work was essential to the Norwegian fishing industry. He also was a pioneer in the building of the Inernational Organization for Marine Research. The new stamps simultaneously hail the entire Norwegian fishing industry. The 40-ore stamp is brown and green while the 90 ore is blue and green.

THE TERRITORY of Papua and New Guinea will be the host country for the first time at the Third South Pacific Games to be held at Port Moresby from Aug. 13 to 23. To commemorate this event, the territory will issue three new stamps. One stamp will show a yachting race. Another stamp will depict the games' swimming pool. The third will illustrate the main games arena in the suburbs of Port Moresby.

The anaconda, which is the name of four kinds of large snakes found in tropical South America, sometimes grows longer than 30 feet. This snake bears live young, instead of laying eggs.

Auction Will Be Held For Fish Pool At Fair

LISBON — A bubbling spring in the seven-acre addition to the Columbiana County fairgrounds will supply a fish pool.

The Fairfield Ruritan Club has taken on the project of building the pool at the spring.

With the cooperation of other Ruritan clubs in the county, it will sponsor a public auction at 7 p.m. Thursday in the fairgrounds coliseum.

Ben Weingart, a member of the fair's board of directors, is a charter member of the Fairfield club.

Joe Hoffman of Columbiana, past president and publicity director for the sale, said the spring is on a slope overlooking the midway and the pool will be a scenic, refreshing spot once it is developed. "We hope to have it ready for the fair Aug. 20-24," he said.

A blacktop midway has been built on the new addition, parallel to the old midway, and the sloping ground recently cleared and graded will be used for display of farming equipment. A new entrance will be made through the west end of the addition.

Hoffman appealed for donations of merchandise of any kind for the auction Thursday. "Anything of value, large or small, will be appreciated," he said.

Individuals, merchants or industries having material to donate may call Joe Hill in Lisbon or Hoffman in Columbiana.

Nixon Seen Shaping New Latin-American Program

NEW YORK (AP) — Gov. Nelson A. Rockefeller completed a 33,731-mile Latin-American survey for the Nixon administration Sunday and is expected to give the President his recommendations on a new policy next month.

Informants said President Nixon may unveil a new policy during a Latin-American economic conference in October.

The Rockefeller report will cover impressions and opinions gathered by the New York governor and 23 experts accompanying him to 20 nations, ranging from Brazil, larger than the continental United States, to the microstate of Barbados, smaller than the city of Los Angeles.

Besides his policy recommendations, Rockefeller also is expected to urge setting up special government machinery to implement the new Latin-American policy and make it viable. Some aspects may require congressional approval.

During his trip, Rockefeller emphasized a belief that the Alliance for Progress failed to ashieve many of its goals because the machinery necessary to push it through was never created and laws and regulations blocking alliance goals were never eliminated.

Two members of Rockefellers advisory staff said Latin Americans were partly to blame for the alliance's shortcomings. They said many Latin nations reacted too slowly or not at all to creating complementary planning and development boards to see alliance projects through.

But at the same time the Rockefeller mission provided clear indications that the new policy will incorporate some, if not most of the alliance's principles and objectives.

Rockefeller started his tour critical of the Kennedy program for Latin America, but he appreciably altered his statements toward the end.

"The objectives of the alliance have been accepted universally in almost all countries as very interesting and important goals for peoples of American countries," he told one news conference.

"There have been frustrations because we could not fulfill the promises, and therefore what is important is to analyze why it was so and how we can change things so as to advance in fulfillment of these objectives."

Rockefeller's recommendations are expected to cover, among other things:

1. Protectionist U.S. trade policies that Latin Americans claim are curbing their export potential.

2. Elimination of conditions to U.S. aid, such as the requirement that aid funds be spent in the United States. The governor said these conditions amounted to a subsidy for U.S. exports.

3. The drain on Latin-American foreign exchange reserves through unfavorable trade balances and loan repayments. Brazil alone will pay $500 million this year in principal and interest on foreign debts.

Busy Day In Court

9 Drivers Fined In Varied Cases

Nine motorists were fined today in Municipal Court on a wide range of traffic charges filed over the long holiday weekend by local police and the Ohio Highway Patrol.

Emmett McDonald, 31, of 407 Market St. was fined $25 and costs by Judge Samuel M. Chertoff on each of two charges—public intoxication and permitting an unlicensed minor to operate his car.

McDonald was cited Friday at 10:45 p.m. on St. George St. by Patrolman Charles Cone, who said a 14-year-old boy was operating the defendant's car. The officer said he was dispatched to investigate a complaint a car was driving all over the street." As he arrived at the scene, the auto crashed into a fence alongside the Patterson Industries plant, he said. Queried by the court, McDonald said the minor was cited to Juvenile Court on a charge of driving without a license.

—:—

THE COURT set a hearing Thursday for Gazel G. McComas, 53, of 1015 Pennsylvania Ave., cited Sunday at 10:07 p.m. on the River Rd. by Patrolman James Woods on a charge of driving after his operator's permit had been suspended or revoked. McComas asked the continuance to allow him to obtain counsel. The court set a $100 appearance bond. Officers said McComas related his permit was suspended in February under the Ohio financial responsibility law.

Robert M. Bartram, 19, of Olnhausen St. was fined a total of $45 and costs on two charges filed on separate days by local police and the patrol.

He was fined $20 and costs on a patrol charge of operating a motorcycle without a special operator's license now required by state law. The patrol cited Bartram Thursday at 8 p.m. on Route 267. He pleaded no contest.

Bartram also was fined $25 and costs on a charge of driving an auto 46 miles an hour in a 35-mile zone on W. 8th St. He was cited by Woods Wednesday at 11:13 p.m.

Robert W. Montgomery, 19, of 1094 Pennsylvania Ave. was find $10 and costs on a charge of operating an auto without a muffler. He was cited Thursday at 8:15 p.m. on Densmore Ave. by the patrol. Montgomery pleaded "no contest." Joyce A. McLaughlin of 817 Riverside Ave., Wellsville, was fined $15 and costs on a charge of driving 70 miles an hour in a 60-mile zone on the East Liverpool-Wellsville Rd. She was cited Thursday at 5:05 p.m. by the patrol.

—:—

WARREN D. Wolfe, 18, of 324 Campground Rd., Wellsville, was fined $20 and costs and given a 15-day suspension of his operator's permit on a charge of driving 75 miles an hour in a 60-mile zone on Route 7. He was cited by the patrol Sunday at 8:50 p.m.

Martin L. Warren, 25, of Cincinnati drew a fine of $10 and costs on a charge of being a passenger on a motorcycle without wearing a protective helmet. He was cited by the patrol Saturday at 10:45 p.m. on Route 170. The operator of the motorcycle on which he was riding, Walter A. Schunk Jr., 27, of Baltimore, Md., was fined $10 and costs — also for lack of a safety helmet.

William M. McMillan, 38, of Wisconsin Dells, Wis., forfeited a $27.50 bond on a charge of driving 70 miles an hour in a 60-mile zone. He was cited by the patrol Friday at 11:30 a.m. on Route 7.

The court granted a continuance until July 23 in the case of Mike Watson, 23, of Radio Heights, charged with operating a motorcycle without a license. He was cited May 30 on W. 9th St.

Carter Heads NAACP Unit

Byron Carter was elected president of the city chapter of the NAACP Saturday at the Elizabeth Carter Tea Room at 1160 Pennsylvania Ave. His term will expire in December 1970.

Mrs. Dorothy Peters was elected first vice president.

Mrs. Rosalee Spencer, Freedom Fund chairman, reported on the NAACP Tag Day held June 14.

She also reported major plans for the forthcoming Freedom Fund banquet and dance have been completed, and final details are being arranged.

Judge Russell L. Carter of Dayton will be the guest speaker for the banquet July 19 at 7:30 p.m. at the Inn Town Motel. The Rev. Paul Randall will be the toastmaster. The Supremes, a local band, will play for dancing after the banquet.

The next meeting will be Aug. 2 at the Potters Savings and Loan Annex.

X-Ray Unit Scheduled For Plaza At Calcutta

The Columbiana County Public Health League's Christmas Seal X-ray cruiser will offer free chest x-rays to persons over 18 Thursday at the St. Clair Plaza in Calcutta.

Hours will be 4 to 10 p.m. Serving as volunteer clerks will be Mrs. George Shaw and Mrs. Albert McLain, 4-6; Mrs. R. H. Hays and Mrs. Dennie Singer, 6 to 8, and Mrs. Myer Alpern and Mrs. Ralph Gibson, 8 to 10.

The unit will visit the East Palestine street fair Friday and Saturday and will be in operation from 2 to 4 and 6 to 9 p.m. both days in front of the American Legion home.

Falls Injure Three In Area, 19 More Treated At Hospital

A Wellsville area boy and woman and a city man in separate falls were admitted to City Hospital over the weekend. A man injured by fireworks was among 19 others treated at the hospital and released.

Kevin Hoschar, son of Thomas Hoschar of Wellsville RD 1, was in "guarded" condition today with abdominal injuries suffered in a fall against a steel pipe.

In "good" condition was Ruth Flowers of Wellsville RD 1 who received a back injury in a fall down steps.

Robert Carl of 912 Watson Ave. was in "fair" condition with a leg injury suffered in a fall while fishing at Tappan Lake.

Frank Pardo of River Edge, N.J., suffered severe cuts of fingers of the right hand when fireworks he was igniting exploded prematurely.

Also treated were Harriet Winland of 216 8th St., Wellsville, a sprain of the right foot in a fall; Larry Foster, son of Oscar Foster of Virginia Ave., contusions and abrasions of the right leg which caught between two pieces of farm machinery; Thomas Mahoney, son of William Mahoney of Dayton, laceration of the right thumb on a glass window.

John R. Sokac of Vale St., laceration of the fourth finger of the left hand which caught in a machine; David W. Wilson, son of Wesley Wilson of 1011 Anderson Ave., Wellsville, contusion of the fifth finger of the left hand on a meat slicer.

Rocco Zirillo of 1019 Commerce St., Wellsville, cut of a finger on metal; James Beadnell II, son of James B. Beadnell of 207 10th St., Wellsville, laceration of the right eyebrow in a fall; William A. Pease, son of William L. Pease of East Liverpool, possible fracture of the left knee in a fall from a bicycle; Donald A. Lowe Jr., son of Donald A. Lowe of 1215 Parshall Rd., Wellsville, right leg cut on a nail.

Roger D. Bergert, son of Paul Bergert of Foundry Hill, Salineville, laceration of the inside of the mouth in a fall; Johnny Pickering, son of John Pickering of 1275 Parshall Rd., Wellsville, scalp laceration in a fall; John D. Puckett, son of Charles Puckett of Alliance RD 4, left forearm lacerated against a farm implement; Steve E. Ryan, son of Edward Ryan of 427 W. 9th St., possible fractured left arm in a fall.

William McHenry of 200 Thompson Ave., back strain while attempting to lift a refrigerator; Jack Linville, son of Hilton Linville of 1700 Alpha St., forehead laceration while swimming; Robert E. Fickel of 814 Riley Ave., laceration of the fifth finger of the left hand on car hood.

Jerry Enochs, son of William Enochs of 50 2nd St., Newell, laceration of the right arm in a fall; Gerald Greathouse of Baxter St., left index finger lacerated on machinery, and Harry Workman of 214½ 2nd St., Wellsville, injury to the right thumb when a die fell on him at Newcastle Refractories.

Street Fair Plans Set By Legion At Palestine

EAST PALESTINE — Plans have been completed for the annual American Legion Post 31 homecoming and street fair Thursday through Saturday.

Booths, concessions, games and amusement rides will be featured. The mobile unit of the Columbiana County Public Health League will offer free chest X-rays for adults only Friday and Saturday from 1 to 4 and 6 to 9 p.m. in conjunction with the city board of health.

3 Motorists Fined In Speeding Charges

SUMMITVILLE — Mayor Ernest Phillips fined Mrs. Betty Joann Beadnell, 31, of Hammondsville $10 and costs at a hearing Saturday night.

Mrs. Beadnell was cited in a radar check by Marshal Forrest Young for speeding on Route 644.

Forfeiting $20 bonds on the same charge were Donald L. Morrison, 22, of Bergholz and David Lee Lunn, 21, of Massillon.

30 Cases Face Judge As Holiday Aftermath

An aftermath of a three-day holiday weekend, Municipal Judge Samuel M. Chertoff today disposed of 30 criminal charges involving 27 defendants.

The defendants paraded in front of the bench for nearly an hour. Most were charged with traffic offenses. The court also imposed penalties on five charged with intoxication.

Hearing Planned In Assault Cases

Municipal Judge Samuel M. Chertoff today set a hearing July 18 for Danny Pridemore of 1812 Michigan Ave., one of several youths facing assault and battery charges as a result of an alleged disturbance at a teenage dance May 31 in the former Klondyke School.

Pridemore is charged with assault on three teachers who were chaperones at the dance—Stephen Craig, Paul Bogges and Susan Moore. Another youth was fined and jailed on similar charges at an earlier hearing.

The continuance was granted when Pridemore asked time to obtain counsel and Solicitor Donand E. Smith advised the court two of the complaining witnesses are in Michigan and will not be available until later.

Pridemore was taken into custody on the three warrants Sunday. The court continued his $645 appearance bond.

Weirton Woman Dies In Accident

Strong winds were blamed for the death of a Weirton woman in a one-car accident on Route 22, North Fayette Township, Pittsburgh Saturday.

Margaret DelGuzzo, 21, was reported dead on arrival at 1:50 p.m. at Ohio Valley Hospital, McKees Rocks, Pa. She was a passenger in a car driven by Marianne DelGuzzo, 27, also of Weirton.

The car was apparently flipped off the highway by strong winds and struck an exit sign.

The driver and four others, also passengers in the car, were treated for injuries at West Allegheny Hospital, Imperial.

3 From Beaver Local At Key Club Meeting

Three officers of the Key Club at Beaver Local High School are attending the international convention which opened Sunday in Miami, Fla.

Delegates are Tim Mellon of Lisbon RD 3, president; Jerry Plunkett of West Point, secretary, and Paul Copestick of Fredericktown, treasurer. All seniors, they made the trip by car, accompanied by Robert Stewart of Calcutta, club sponsor.

They earned the trip money themselves and plan to travel through the south after the convention ends Wednesday.

Although dogs have very acute hearing and can detect sounds that most human beings cannot, they do not see so well as man. A dog sees objects first by their movement, then by their brightness, and third by their shape.

RE-CUTTING DIAMONDS

With the increased interest in antique jewelry, and the rising cost and scarcity of fine diamonds, jewelers are considering more and more the re-cutting of old diamonds to bring them up to current standards. In older stones, especially those cut early in the 19th Century before the development of the modern brilliant cut by Tolkowsky in 1919, there is a lack of brilliance due to non-scientific placement of facets.

These diamonds, which are referred to as "old miners", may be of good quality in regards to Color and Clarity. By improving the Cutting quality, which the American Gem Society Diamond Grading Standards consider a most important factor in determining price, the value of the stone, as well as its beauty, is greatly increased. However, there is a certain loss of carat weight in the re-cutting process, but the heightened brilliance often offsets this and the stone may actually appear larger than formerly.

Re-cutting an older stone is recommended only for those of one carat or over. The weight loss in carats may be as little as 10% to 40% or more depending on the basic proportions of the diamond. The charge for the re-cutting is roughly in the area of $100 for a one-carat gem, but this is easily compensated by the increased value of the re-cut diamond. Depending on the season, it may take around two months to complete the job, sometimes less in slower periods. We will be happy to advise you properly on the advisability of re-cutting your antique diamonds. Stop by for a consultation soon.

Deaths *and* Funerals

Mrs. Laura Swan

Mrs. Laura E. Swan, 85, of 916 Washington St., Newell, died at 11:55 p. m. Saturday at City Hospital after a lengthy illness.

She was born in Parkersburg, W. Va., Feb. 9, 1884. She was a member of the Newell United Presbyterian Church.

She is survived by three sons, Thomas Swan of Georgetown, Frank Swan of North Augusta, S.C., and Richard G. Wolfe of Newell; two daughters, Mrs. Inez Covert and Mrs. Goldie Covert, both of Georgetown RD; three brothers, Mr. M. G. Miller of Phoenix, Ariz., Raymond Miller of Georgetown RD and Z. N. Miller of Newell; 13 grandchildren and 9 great-grandchildren.

Services will be held Tuesday at 10:30 a.m. at the Welch Funeral Home in Hookstown by the Rev. Donald Bell of the Westminster United Presbyterian Church of Chester. Burial will be in Mill Creek Cemetery.

Friends may call at the funeral home this afternoon and tonight.

Walter Dawson

LISBON — Walter G. Dawson, 72, of 604 W. Lincoln Way died at 11 a.m. Saturday in Salem Community Hospital east unit, where he had been a patient the last month.

He was born Jan. 2, 1897, in Glover Gap, W. Va., a son of M.L. Dawson and Alice Hughes Dawson, and had resided in Lisbon more than 40 years.

Mr. Dawson was a retired driller for a gas company. He was a member of the First United Methodist Church here, a 32nd Degree Mason and a member of Lodge 17 at Cameron, W. Va.

He leaves his widow, the former Anna McDermott, whom he married Feb. 4, 1920; a daughter, Mrs. Elizabeth Peterson of Lisbon; a son, Robert W. Dawson of Great Falls, Mont.; six sisters, Mrs. Mollie Glover of Walton, W. Va.; Mrs. Jessie Swain of Loudonville; Mrs. Daisy Ogilvie of Columbus; Mrs. Frances Sargent of Mansfield; Mrs. Kenna Coffman of Moatsville, W. Va., and Mrs. Dale Tetrick of Fairmont, W. Va., and seven grandchildren.

Services will be at 1:30 p.m. Tuesday in the Henry Funeral Home, with the Rev. Frederick Shiltz of the United Methodist Church officiating. Burial will be in Lisbon Cemetery.

Friends may call from 2 to 4 and 7 to 9 today at the funeral home.

Theodore Roknich

Theodore Roknich, 75, of Smiths Ferry RD, a retired steelworker, died Sunday at 2:10 p.m. at the Fox Nursing Home in Chester.

He was born in Yugoslavia April 23, 1894. He at one time was a charger - operator in the open hearth department of the Crucible Steel Division of Colt Industries.

He was a member of the St. George Serbian Orthodox Church and the Serbian National Federation Lodge 72.

He is survived by six daughters, Mrs. Sadie Bekich and Mrs. Mary Yope, both of Midland, Mrs. Helen Mandish of Industry RD, Mrs. Mickey Johnson of Midland RD, Mrs. Luby Susich of Ohioview, Industry, and Miss Daisy Roknich of Fombell, Pa.; one sister in Yugoslavia, 11 grandchildren and 10 great-grandchildren.

Services will be held Wednesday at 2 p.m. at St. George's Church by the Very Rev. Milorad Dobrota. Burial will be in Beaver Cemetery.

Friends may call at the residence on the Midland - Fairview Rd., past Midland Heights, after 7 tonight. The Schwerha Funeral Home in Midland is in charge of arrangements.

Mrs. Joseph Martin

Services will be held Tuesday at 9:30 a.m. at St. Ann's Catholic Church for Mrs. Sophia E. Martin, who died Friday at Rochester General Hospital.

Fr. Robert Sfara will officiate. Burial will be in Columbiana County Memorial Park.

Friends may call at the Dawson Funeral Home from 2 to 9 tonight, where the Rosary will be recited at 8.

Mary McCormick

LISBON — Mrs. Mary Catherine McCormick, 66, of 122 Green St. died at 9:50 p.m. Sunday at Salem Community Hospital west unit after an illness of one week.

She was born April 19, 1903, in Madison Township, a daughter of Daniel and Stella Bell Crawford, and had resided in this area most of her life.

Mrs. McCormick was a member of the Trinity United Presbyerian Church.

Her husband, Alvy G. McCormick, died Dec. 14, 1954.

She leaves hree daughters, Mrs. Martha J. Cox of Canton and Mrs. Alice Pike and Mrs. Mary Ellen Armstrong, both of Lisbon; a sister, Mrs. Amie McCord of Lisbon; two brothers, John S. Crawford and Truman M. Crawford, both of Salem, and seven grandchildren.

Services will be at 3 p. m. Wednesday in the Eells-Leggett Funera Home, with the Rev. C. O. Armstrong of the Sebring United Presbyterian Church officiating. Burial will be in Riverview Cemetery, East Liverpool.

Friends may call from 2 to 4 and 7 to 9 p.m. Tuesday at the funeral home.

Mrs. James Sutherin

NEGLEY — Mrs. Helen M. Sutherin, 51, of Front St. died at 4:25 p.m. Sunday at Youngstown North Side Hospital. She had been ill with cancer for some time.

Mrs. Sutherin was a bookkeeper for 26 years at the Pittsburgh Chair Co., and had worked for a brief time at the Brittain Motors Co.

She was treasurer of the Negley Methodist Church, a past matron of the Anna Eckley Eastern Star Chapter, and a past queen of the Dames of Malta Lodge.

She was a member of the East Palestine American Legion Auxiliary and the Negley United Methodist Church.

She was born here Oct. 12, 1917, a daughter of Mrs. Edna L. French Greer of Negley and the late Wilphie J. Greer.

Besides her husband, James E. Sutherin, at home, she is survived by a brother, William B. Greer of Clarksburg, W. Va.

Services will be held Wednesday afternoon at 1:30 at the VanDyke Funeral Home by the Rev. VanCamp Chiles of the church. Burial will be in East Carmel Cemetery.

Friends may call Tuesday night at the funeral home.

Oscar Rupert

EAST PALESTINE — Services will be held Tuesday for Oscar A. Rupert, 63, of 521 N. Walnut St., a retired baker, who died Saturday morning at home following a heart attack

He was born Aug. 8, 1905, at New Springfield, a son of Clark and Mary Alice Wetzel Rupert, and had resided all his life in this area. Owner of the Rupert Bakery for many years, he had retired about ten years ago.

He was married in 1937 to the former Elsie Kachner. He was a member of Trinity United Presbyterian Church and the Masonic Lodge.

Besides his widow, he is survived by two sons, Jack Rupert of Youngstown and Fred Rupert in the Navy; two sisters, Mrs. Elmer Sansenbaugher and Mrs. Orville Reagle of East Palestine; two brothers, Glenn Rupert and Disney Rupert of East Palestine, and four grandchildren.

Services will be held Tuesday at 1:30 p.m. at the VanDyke Funeral Home by the Rev. C. Lee Filker of the church. Burial will be in Glenview Cemetery.

Friends may call tonight at the funeral home.

Clara Van Fossan

LISBON — Miss Clara K. Van Fossan, 83, of the Ohio Valley Nursing Home, 921 Ohio Ave., East Liverpool, died at 7:40 a.m. Sunday in East Liverpool City Hospital after a one-week illness.

She was born Nov. 19, 1885, in Elkrun Township, a daughter of W.S. and Lunette Morrison Van Fossan, and had resided in the Lisbon area virtually her lifetime.

Miss Van Fossan was a member of the First Christian Church here.

She leaves six sisters, Mrs. Eudora King of Salem, Mrs. Marjorie Butler and Mrs. Verna Boulton, both of East Liverpool; Mrs. Edna Hawkins of Steubenville, Mrs. Delza Horn of Alliance and Mrs. Frances Downes of Akron, and a brother George W. Van Fossan of Leetonia.

Services wil lbe at 1:30 p.m. Wednesday in the Eells-Leggett Funeral Home, where friends may call from 2 to 4 and 7 to 9 p.m., Tuesday. The Rev. Paul Haney of the First Christian Church will officiate. Burial will be in Lisbon Cemetery.

Ernest Wilson

Ernest Wilson, 83, of Oak Ridge, Tenn., a retired area pottery worker, died Saturday at 10:30 p.m. at his home following an extended illness.

He was a son of the late Thomas and Sarah Owen Wilson. He was employed in the local potteries, but left this area 32 years ago to perform experimental and instructional work for the Tennessee Valley Authority at Norris, Tenn.

He is survived by a daughter, Ruth Ferguson of Pigeon Forge, Tenn.; a son, Bruce Wilson of Knoxville, Tenn.; a brother, Thomas Wilson of Dallas, Tex.

The Weaver Funeral Home in Knoxville is in charge of arrangements which are incomplete.

2 Men Fined For Fighting

Two men cited for an alleged disturbance at Buddy's Restaurant on E. 3rd St. Saturday night were fined $10 and costs each today by Municipal Judge Samuel M. Chertoff on charges of disorderly conduct by fighting.

They were identified as Jerry Hall of the Calcutta - Smiths Ferry Rd. and Michael E. Watson of Jeannette, Pa., both arrested at 11 p.m. by Patrolman Charles Coen and W. F. Copestick.

A man identified as James H. Obey of Dome St. was fined $10 and costs as a result of the same incident. He was accused of obstructing an officer by remonstrating with Coen when Hall was placed under arrest. Obney pleaded no contest.

Meanwhile, Ralph E. Heath of Rochester, N. Y., was found not guilty by the court on a charge of assault and battery early Sunday on Ernest Hashman of Washington St. Patrolman David Huffman cited Heath and Hashman at 2:55 a.m. yesterday in the New York Restaurant. Hashman was fined $25 and costs on an intoxication charge.

Heath told the court Hashman entered the restaurant highly intoxicated," disturbed his family and used obscene language. Huffman said he found Heath sitting on Hashman's chest and striking him inthe face.

George Bloor of 305 Moore St. was find $25 and costs on a charge of resisting an officer and $10 and costs on an intoxication charge. He was cited Sunday at 10:58 p.m. on Moore St.

Burglars Steal Tires, Vehicle

EAST PALESTINE — Police pressed investigation today of the theft of at least 25 new tires from an auto service agency by burglars who stole a station wagon to haul the tires away then wrecked it.

The entering took place Sunday morning about 1 at the Bob George Auto Service on Bacon Ave. A station wagon owned by George was loaded with the quantity of tires and driven away.

The 1967 vehicle, which George had purchased, repaired and was about to sell, was found by authorities about 3:30 a.m. near Berlin Lake, extensively damaged.

The thieves had attempted to burn the station wagon, police said.

NEWS QUIZ MAP ANSWERS

CURTAIN CALL—Romania is surprise stop announced for President Nixon's journey home the long way from Apollo 11 splashdown. (3)

COMMANDO STRIKE—Israeli raiders cut power lines along Nile on 100-mile strike into Egypt. (6)

CLOSE VOTE—House votes 210-205 to extend 10 per cent surtax in narrow administration victory. (2)

HIGHLAND SIEGE—Communists pound surrounded U.S. Special Forces post in Vietnam's Central Highlands. (1)

FINCH FOILED—Dr. Roger O. Egeburg of California is named assistant secretary of Health, Education and Welfare after American Medical Association opposition blocks Secretary Robert Finch's first choice. (4)

PRINCELY PAGEANT—Prince Charles made Prince of Wales in colorful ceremonies at ancient Caernarvon Castle. (5)

BOOKS BALANCE—Final figures on fiscal year show $1 billion surplus, first in federal budget in nine years. (10)

ROCKY'S ROUGH ROAD—Argentine labor leader assassinated as Gov. Nelson Rockefeller resumes violence-marked Latin tour. (8)

PROBLEM GAS—Army gives up plan to transport poison gas from Colorado plants to Atlantic for dumping, will burn surplus stocks at own installations. (7)

POLITICAL PRISONER DIES—Former Congo Premier Moishe Tshombe dies after two years political detention in Algeria

Islam, the religion of the Moslems, is a word meaning "peace and submission," which is usually taken to mean "peace through submission to God." Most of the world's 400 million Moslems live in Africa, the Middle East, and Indonesia.

English is the world's "most flexible language," that is, the one which continues to add the most new words and to give new meanings to old ones.

Personalities In The News

KEY BISCAYNE, Fla. (AP) — President Nixon and comedian Jackie Gleason were one-up winners in an 18-hole Sunday golf match with professional Tony Penna and David Eisenhower, the President's son-in-law.

The losers were giving the winners a stroke a hole.

ST. LOUIS (AP) — An old friend of Lyndon B. Johnson is sending the former president a gift.

August A. Busch, Jr., president of Anheuser-Busch, Inc., ordered four bisons to be shipped today to Johnson State Park, adjoining the LBJ Ranch near Johnson City, Tex.

The shaggy 2-year-old buffaloes will be added to a small herd already at home on several hundred acres of grazing land at the park which was opened recently.

A spokesman for Busch said he and Johnson "have been swapping horses and cattle for years."

OJAI, Calif. (AP) — Col. Thomas P. Stafford, commander of the Apollo 10 spacecraft, has received the Flying Tiger Pilot trophy.

The award is presented every two years by veterans of the group that flew in Asia during World War II under Lt. Gen. Claire Lee Chennault.

"You fellows fought for freedom and did a hell of a job," Stafford told 200 at the 27th Flying Tigers reunion Saturday. "We had half a million guys helping us up there. You were on your own, and that's what makes America great."

Stamps In The News

Simple stamp designs with brief inscriptions are rarities today. That's why it is sheer delight to have a new series of stamps from Dominica, a small island in the Caribbean.

Dominica's latest set of 8 stamps depict uncluttered tourist scenes, and the only writing on each stamp is the name "Dominica" and the denomination.

The designs feature sketches of the following: woman and child in native costumes; an orange tree with the sea in the background; a new hotel; parrots; women dancers; a calypso band on the beach; tropical fish and a skin diver and turtle. Each stamp is multi-colored adding to the attraction of the individual scene.

NEWS FROM the stamp auction front reveals that a "Stamps of the World" auction held by Harmer, Rooke & Co. in New York recently realized a total of $100,000, which was about $20,000 more than expected for these items. Also in New York, at approximately the same time, a comprehensive auction sale of U.S. stamps by the Robert A. Siegel Auction Galleries realized a sum of $206,448. Two sales in one week thus resulted in over $300,000 worth of purchases, a nice tidy sum in any business endeavor!

THE SECOND 1969 Edition of the Harris Collectors Guide-Catalog is now on the market. The compact, revised booklet with 64 pages and nearly 800 illustrations, contains complete listings of U.S. stamps plus specialities. It also is a handbook for beginners and gives tips on how to collect stamps.

Copies cost 10 cents and can be purchased directly from H. E. Harris & Co., Box S-GA, Boston, Mass. 02117.

PEOPLE IN England are either writing more letters or saving more stamps. According to a report from British Postmaster General John Stonehouse, the post office sold approximately $240,000 worth of stamps, through its philatelic bureau in the fiscal year 1963-64. Within the next two years the amount is expected to reach $16.8 million!

According to certain surveys, the normal peak month for head colds is February, while the low point in the year for colds is July.

Rockefeller, W. Va. Aide, Has New Son

CHARLESTON, W.Va. (AP) — The father, John D. Rockefeller IV, looked weary, but the grandfather, Sen. Charles H. Percy, was exuberant over the birth Sunday of John Rockefeller.

"They're both just great," said Rockefeller, 32, referring to his new 9 pound, 3½ ounce son, and his 24-year-old wife Sharon. "I'm very proud of both of them."

The grandfather was somewhat more outspoken.

"Wow—I saw my grandchild in the nursery and he was so much bigger than all the other babies who were at least four or five days old—he's quite a boy, said Percy, the Republican senator from Illinois.

Rockefeller, West Virginia Secretary of State, said the baby will be called "Jamie" and will have the opportunity of selecting the Rockefeller's middle name, Davison, when he's older. If he does, his name will become John D. Rockefeller V.

Franklin Township Trustees Okay Bills

SUMMITVILLE — Franklin Township trustees authorized payment of bills totaling $686 during their meeting Saturday afternoon.

Edwin Copeland of Millport told the trustees seven sheep and three lambs were killed by dogs and five sheep and one lamb were injured.

Trustees reported that two trees were cleared off area roads following the storm.

The next meeting will be July 19.

Grange Committees Set For Horse Show

Commitees for the Aug. 30 horse show have been announced by Fairview Grange in Beaver County.

They include: General, Paul Dawson and Warren Turner, and kitchen, Mrs. Ann Hodak, Mrs. Phyllis Dawson and Mrs. Joan Galley.

Dawson obligated Sam Krakoff in the third and fourth degrees.

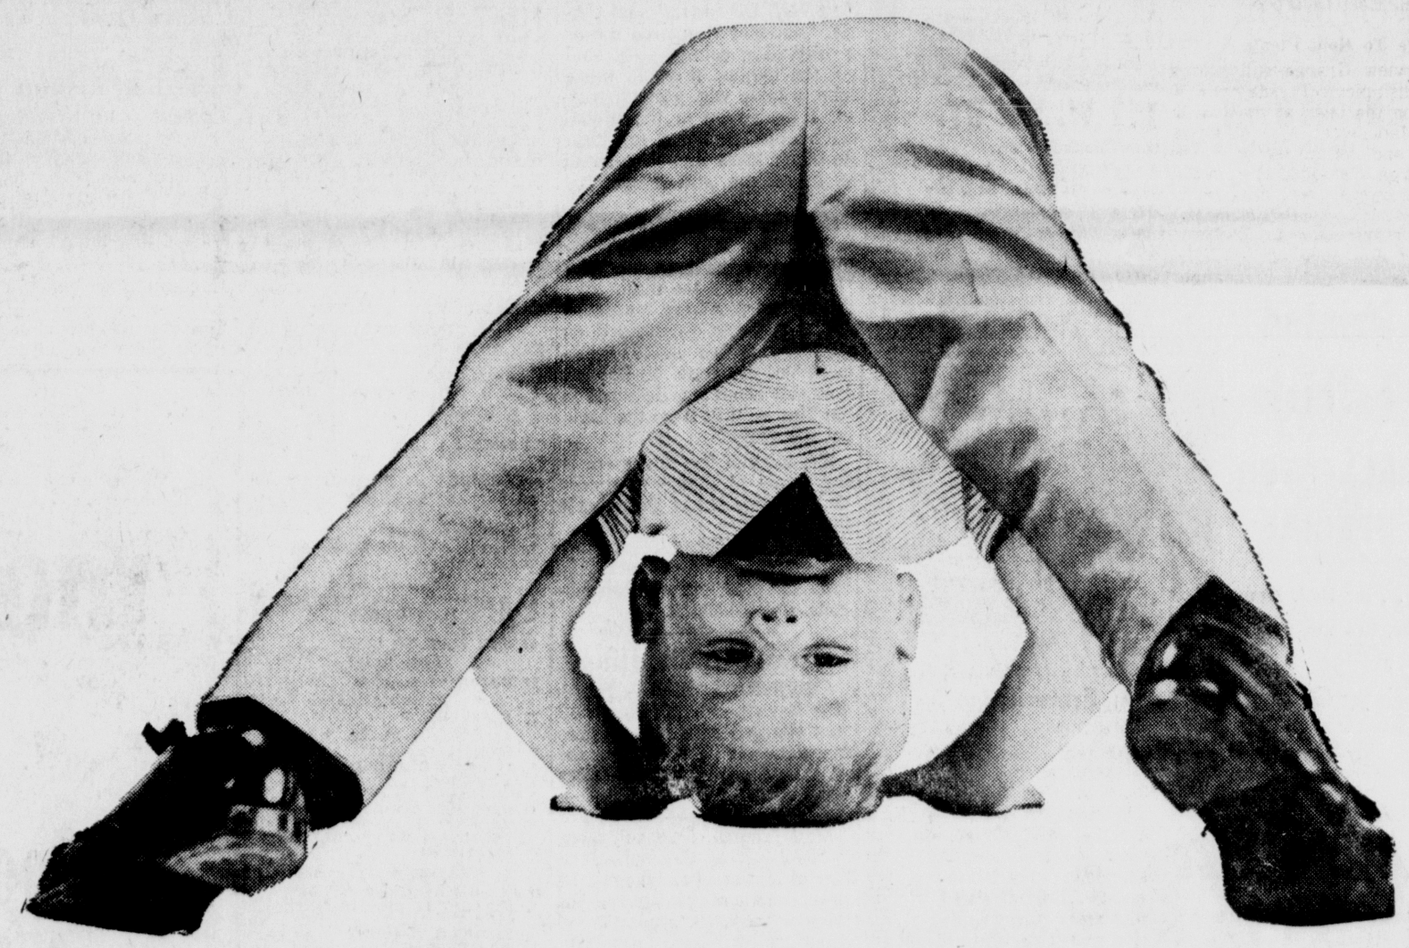

Beaver County Pomona Grange is sponsoring a boat ride on the "Gateway Clipper" Aug. 8 for grangers and their guests. Anyone interested in obtaining tickets should contact Mrs. Velma Richards by July 12.

Park Sets Car Fee

EAST PALESTINE — A 50-cent entrance fee for cars of non-residents is now in effect at City Park here. The Park and Recreation Board approved the action, pointing to increased costs in maintenance.

The piccolo is the smallest of the musical woodwind instruments.

On The TV Beat

By Cecil Smith

Carrie Snodgrass-A Name To Remember

"I've stopped telling people I won the Sarah Siddons Award," said Carrie Snodgress. "They ask me who Sarah Siddons was."

Cecil Smith

She's not so much resentful that people in an acting trade would not know the name of perhaps the greatest tragic actress who ever lived. For Carrie, that's part of the readjustment of values.

"Never," she said, "in my wildest dreams did I think of television or movies. I thought I'd get into a repertory company somewhere — Minneapolis or Stratford."

-:-

THAT FITS. Carrie is a young contract player at Universal. But she's a different breed from the sleek, pretty little starlets of the film lots.

There's something in the face that comes alive when she talks — the wide mouth, the deeply disturbing eyes. She's no beauty by Hollywood terms. She's an actress by anybody's terms.

It's in everything she says and does, the way she moves, the gestures of those long-fingered, eloquent hands. She talks of the part she's doing in the movie from John Updike's "Rabbit Run," a part she won through an exqisite television performance on The Outsider.

It's never in terms of what the movie will do for her budding career, but of the part itself, of preparing by studying the psychology of a child with a neglectful mother.

ON THE SET, she'd played a drunken mother who'd screamed at her son, a 4-year-old with a handle more curious than Snodgress, Marc Antony van der Nagel.

"The first time we did the scene, he was surprised; but the second time, he was destroyed, I'd betrayed him I felt like a monster. But that's how the character felt."

Carrie is out of Chicago and the famed Goodman Theater where she not ony won the Sarah Siddons Award but was the only student to ever star in a major production on its professional stage, as Shaw's Cleopatra.

Movie producer Edward Pekula saw her Cleopatra and talked to her of making films. When she graduated, she turned her small car toward Hollywood rather than Minneapolis or Stratford.

-:-

THAT WAS a year ago. Pekula couldn't use her, but recommended an agent. She wound up last November with a seven-year contract at Universal, one of a score of promising young players there.

Some of them are already famous — Katherine Ross, girl friend of "The Graduate," Susan St. James, an Emmy winner for "Name of the Game."

And some are bitter. Miss Ross talks of "penal servitude" of her long contract, of unworthy roles in the wake of her impact in "The Graduate."

Not Carrie.

"When I signed the contract, they told me: 'All we can offer you is lots of work.' That's what I wanted."

In quick order, there was a part in "The Virginian," another in the TV-movie "Silent Night, Lonely Night." The grapevine reported a choice part in an edition of "The Outsider," "The Flip Side." A double role of a plain Jane and her tough pill-popping, floozy sister.

-:-

"I WAS UP for it," said Carrie, "but they dismissed me as a 'nice little college girl.' So I got the tightest dress in wardrobe, a jazzy wig, garish makeup. I turned up in the producer's office, swinging my hips. He didn't know me. He wanted to throw me out. I got the part."

Her performance (you can catch "The Flip Side" when NBC reruns the program July 23) brought her the major role in "Rabbit Run" (at Warners-7 Arts). She sits crosslegged on the floor of her small apartment on the edge of Bel-Air, worrying about a nude scene in the film — "just from the back, but it's scary."

She talks of the future not in the terms of movie marquees or TV series but of great parts to play.

"How did Ellen Terry play Lade Macbeth?" she asks. In time she may forget Sarah Siddons. But I doubt it.

Daily Pattern

By ANNE ADAMS

The elegant redingote look returns — result of clever seaming and soft tie. Have the inset in same or contrast fabric to heighten effect.

Charged In Shooting

CINCINNATI (AP) — Henriette Bryant, 50, of Cincinnati was charged with first - degree manslaughter Sunday in the shooting death May 25 of James Pope, 39.

Most famous of all volcanoes is Mt. Vesuvius, dominating the Bay of Naples in Italy. In A. D. 79 its eruption buried the city of Pompeii, with its population of about 20,000 under hot ash. About three - fifths of Pompeii has been excavated. There was a big eruption of the volcano in 1139 and a major one in 1631 when 15 towns were destroyed and 4,000 people killed. Minor eruptions have occurred in 1779, 1793, 1872, 1906, and 1944, sometimes with loss of life.

Homecoming Program Set

HIGHLANDTOWN — The annual Highlandtown Volunteer Firemen's community homecoming will be held Wednesday through Saturday at the firemen's lot just off Route 39.

A tractor pull will be featured Wednesday at 7 p. m., a pony pull Thursday at 7 p. m. and the parade Friday at 7 p. m.

About 50 units are registered for the parade. Entries are still being accepted by members of the fire department, according to Chief Donald Boyd.

An all-day horse show is scheduled for Saturday.

Dr. Andeen Assumes Duties At Wittenberg

SPRINGFIELD, Ohio (AP)— Dr. G. Kenneth Andeen assumed his duties today as the 10th president of Wittenberg University.

Andeen, formerly dean of academic affairs at William Rainey Harper College in Palatine, Ill., succeeds Dr. John N. Stauffer, who became president of Juniata College in Pennsylvania.

Forfeit At Lisbon

LISBON — Joe N. Watson, 30, of Cleveland, charged with speeding here Sunday, forfeited a $15 appearance bond in mayor's court. Also forfeiting $15 following his arrest Saturday night for intoxication and disturbing the peace was James E. Madden, 26, of Minerva RD 1.

The average life of a hurricane is about nine days.

Death Of Actor Ruled Coronary

LOS ANGELES (AP) — Actor Ben Alexander, found dead in his home, succumbed to natural causes, the coroner's office said today.

Alexander, 58, suffered a coronary occlusion, said Dr. Russell Henry, chief medical examiner.

The autopsy report said the actor had been dead more than a week when his wife discovered the body over the weekend. She and two of their children had returned from a camping trip.

He was found lying on the floor of the master bedroom.

Alexander had been co-star of the "Dragnet" and "Felony Squad" television series.

Airlines Satisfied With Moscow Flights

NEW YORK (AP) — The Soviet airline, Aeroflot, has carried more passengers in the first year of direct air travel between New York and Moscow than Pan American World Airways. But both lines say they are satisfied with the results.

Aeroflot estimated its one-year haul at 10,000 passengers from New York to Sheremetevo, the airport outside Moscow. Pan Am said it had carried about 6,000.

A polemic is a controversial discussion.

In Mideast Situation

Israel-Egypt Exchange Shots Over Suez Canal

By The Associated Press

Israel and Egypt traded artillery and small arms fire across the Suez Canal Sunday night and early today Israeli spokesmen said.

Egypt said Sunday its planes downed an Israeli jet over the Gulf of Suez and its intelligence agents cracked an Israeli spy network in Cairo.

The canal firing was reported at El Quantara in the north, and south of the Great Bitter Lake near the southern end of the 108-mile waterway. An Israeli spokesman said one lieutenant was killed and two soldiers wounded in the exchanges.

There was also action in the troubled Gaza Strip during the night.

The Israelis also said one of their patrols killed an Arab saboteur near the southern end of the Gaza Strip during the night. One Israeli soldier was wounded.

According to a Cairo military communique, Sunday's air battle took place after Egyptian planes crossed over Israeli-occupied Sinai on a reconnaissance mission. Israeli Mirage fighters challenged them and one was shot down. Cairo said the pilot was seen bailing out. There was no confirmation of this from Israel.

The Cairo communique was Egypt's first official admission that its planes crossed the cease-fire line into Sinai since the June 1967 Arab-Israeli war.

The Egyptian government also reported the breakup of "one of the most important and dangerous" spy networks that has operated in Cairo for Israel.

The announcement said the ring was made up of two West German citizens and two Egyptians who were captured June 2 while trying to flee the country with maps showing Egyptian military positions along the Suez Canal.

On the Israeli political front, Deputy Premier Yigal Allon told a Zionist council meeting in Jerusalem, Israel is prepared to reconsider its policy of reprisals against the Arab states if the Arabs would honor the cease-fire agreements.

He said Israel was prepared to honor the cease-fire arrangements on the basis of reciprocity until they are replaced by a peace treaty.

Any auditorium or hall has good acoustics for speech and music if it is properly shaped to reflect useful sound to listeners — without disturbing echoes. A "useful" reflecion is one that arrived at the listener's ear within 1-20 of a second after the sound is emitted by the speaker or musical instrument. If the reflection is delayed longer, it becomes a disturbing echo.

Holiday Traffic Toll Hits 589 Over Nation

By The Associated Press

Traffic accidents killed 589 persons over the holiday weekend, more than on any other three-day Fourth of July holiday period.

The death toll surpassed the old three-day record of 576, set in 1966. It fell far short of the all-time Fourth of July record of 732, set in 1967 when the holiday was four days long.

An Associated Press survey taken two weeks ago on a non-holiday weekend counted 435 traffic fatalities.

Last weekend's count, which extended from 6 p.. Thursday to midnight Sunday, confirmed the National Safety Council's prediction that between 550 and 650 would die on the highways.

Odd Facts

The early Romans often made a practice of adoping children, and their law on this procedure developed into the civil law of many modern countries. The first U. S. state to enact a law for legal adoption was Massachusetts in 1851.

Santa Fe, New Mexico, has been a seat of government longer than any other state capital in the United States. It was founded as the capital of the Spanish province of New Mexico in the winter of 1609 - 1610. Its major industry today is the tourist trade.

About 1 per cent of the babies born in the U.S. are twins.

Several Weekend Accidents Are Investigated By Patrol

A 17-year-old city youth was injured in a two-car accident on Park Way Ave. Ext. Saturday night in one of several minor accidents investigated by the Ohio Highway Patrol at Lisbon during the weekend.

The patrol said Richard Zink, 17, of 1117 Harker Ave. was headed north in a 1961 sedan when a southbound 1960 sedan operated by Keith Anderson, 29, of Lisbon RD 2 lost a tire and axle, which struck Zink's auto.

Zink was injured, but apparently not treated. Anderson was cited for driving an unsafe vehicle.

Two accidents occurred at the same location on Route 518, about a mile west of Route 164 at Gavers, just five minutes apart Saturday.

At 10:45 a.m., Franch Williams, 34, of State College, Pa., driving a 1968 compact headed east, went off the south side of the road on a curve into a ditch and struck an embankment.

At 10:50 a.m., Dietrich Kasgen, 32, of Rocky River went off the road at the same place and struck the ditch and embankment. Kasgen was driving a 1969 coach.

A 1966 coach operated by Scott Kauffman, 17, of 19 Morris St., Lisbon, ran out of gas on Route 7 about two miles north of old Route 30 Saturday at 1 a.m. and as he backed it off the road, the auto struck a guardrail. There was slight damage to the vehicle.

William Tackash, 56, of Youngstown, driving north on Route 7 just north of Rogers Sunday at 12:05 a.m. attempted to pass another vehicle and his auto ran off the road and struck some small trees.

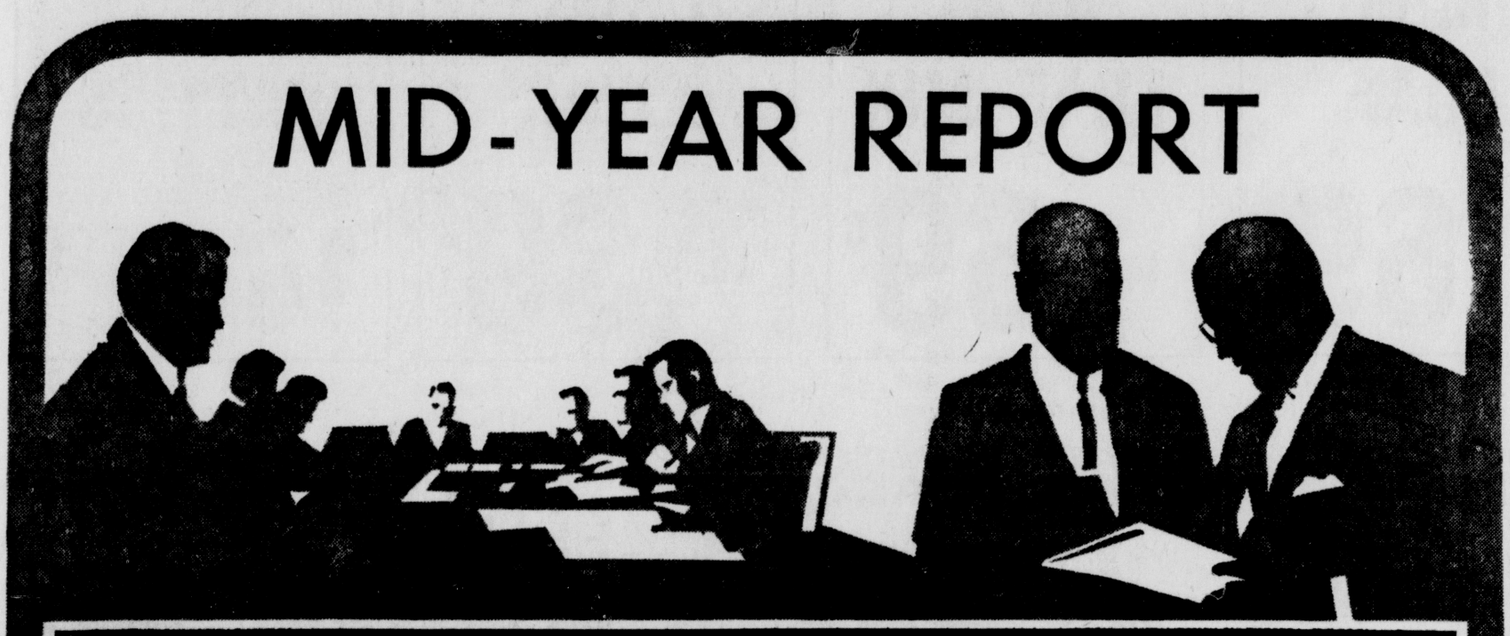

In another incident at almost the same site, William A. Lucas, 17, of the Y. & O. Rd. was southbound on Route 7, just south of Rogers Sunday at 8 a.m., when his auto went off the east side of the road into the ditch and struck a bank.

Norma L. Freeman, 26, of RD 4 lost control of her 1962 sedan on old Route 30 about 2½ miles west of Route 7 and it struck a 1965 coach operated by Larry Moore, 22, of MC 21.

There was moderate damage to both vehicles in this accident which occurred Sunday at 9:20 p.m. No citation was issued.

Scotland Yard is the headquarters of the London (England) Metropolitan Police. The name "Scotland Yard" is often used to mean a special department of the force called Criminal Investigation Department, or C.I.D., which is one of the most famous police organizations in the world. Scotland Yard gets its name from the building which housed the London police until 1890, after which the police moved into other offices which were named New Scotland Yard.

Columnist Checks Mail

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

Pedestrians should be particularly alert on wet nights. Their chances of being killed or injured while croossing the street then are 10 times as high as on a sunny day.

Auto theft is the fastest rising crime against property in the United States. More than half a million cars are stolen yearly—averaging one every 48 seconds.

No train has been a greater boon to writers than the Orient Express, which started running between Paris and Istanbul in 1883. One hundred films and 400 short stories and novels have plots based on romances and intrigues aboard this legendary train.

Looking for an unusual excuse for throwing a party? Well, why not a wingding to honor the zipper? This year marks the 90th anniversary of the birth of this indispensable gadget.

It is never too late for health. Even senile patients may be rehabilitated, says Dr. John Brantner, University of Minnesota clinical psychologist, who believes old age is a disability that, like other disabilities, can be recovered from if properly treated.

Ireland is the capital of bachelordom and spinisterhood. One out of four persons there never marries.

Quotable notables: "I believe that man will not merely endure: he will prevail. He is immortal, not because he alone among creatures has an inexhaustible voice, but because he has a soul, a spirit capable of compassion and sacrifice and endurance."—William Faulkner.

Laser rays may become a new dental weapon. Dentists are hopeful that glazing teeth with these high-intensity light beams may provide them with a film protective against decay.

Worth remembering: "The weaker sex is really the stronger sex because of the weakness of the stronger sex for the weaker sex."

Here's one reason why so few city dwellers try to get away from it all and return to the farm: it now takes about $75,000 worth of equipment to operate a modern paying farm.

Hope for the hapless: Retarded children were once thought incapable of being helped. It has been found, however, that good institutional or foster home care can raise their intelligence quotients by as much as 14 per cent.

It was Socrates who observed, "No evil can happen to a good men, either in life or after death."

Killed In Mishap

BURT, Mich. (AP)—Donald Martin Hammond, 32, of Delphos, Ohio, was killed Sunday when his car crashed off I-75 near here.

BARBS

People who pride themselves on being sharp as a tack can often win extra points for having small heads.

Dentists' offices feature old magazines because the patients swipe the new ones.

Weight - watching is popular, but watching the more slender types is even more popular, says our wolfish colleague.

Now is the time to promulgate astral advertising regulations, before the highway sign people get in their licks.

As the twig is bent so grows the child if the twig is bent properly over the child at appropriate times.

The latest thing in women's clothes is usually your wife.

Somehow, we're not entranced by the real estate saesman who praised the plumbing, saying the house was occupied by a family who bathed only twice a year.

After a day like this we usualy cast our horoscope, and invariably miss the wastebasket.

Have you noticed — the days are getting shorter, except at work.

No, Gwendolyn, a Pompidou isn't the latest haircut from France.

The boss had a kind word for us the other day, but misplaced it.

People now placing reservations for the first commercial moon ships should be getting their tickets about the same time that their New York - Washington high speed train reservations come through.

Saying prayers before meals is quite wise if you eat at our nonfavorite beanery.

Ethics For Legislators

Don't Shed Tears Over Curbs On Ohio Lawmakers

By JOHN R. THOMAS
Review Staff Correspondent

COLUMBUS, Ohio — Don't shed any tears for state legislators who might find their extra-curricular activities — that is, their back-home occupations — restricted if the Senate should approve the House-passed code of ethics bill.

For one, the bill itself really won't restrict those outside activities — if indeed there are legislators who engage in outside interests which might cause a question of ethics to be raised.

Point Never Raised

That point never was proved — nor raised — during House debate on the bill which was approved 77-6.

The fact that the bill was adopted handily by the lower chamber is in itself a good indication that the provisions contained in the measure will not do much good in cracking down on legislators who might engage in the sale of their votes in exchange for campaign contributions or other valuable considerations.

Again, the fact that there may be some wrongdoing on the part of Ohio lawmakers never was raised during floor debate. Rather, what seemed to be of most importance was the recent scandals on the national level.

Legislators Resigned

Most legislators seemed resigned to the fact they would vote for the bill, even if they did appear bewildered by their apparent belief that somehow the Ohio General Assembly did not fit into the mold of corrupt lawmakers.

And if, as some critics charged, the bill was aimed at and only would apply to attorneys, they probably were right. At least no cogent arguments to the contrary were offered by proponents of the ethics bill.

But if the bill is aimed at attorneys, 23 of 36 lawyer-legislators didn't buy the argument. That many attorneys voted for the measure, and only six against. Seven of 16 members absent during the vote are attorneys.

'Is It Necessary?"

What logically could have been asked — but only was in an indirect way — was: "Is this bill really needed, or is it *so much window dressing for the public?"*

State Rep. James Thorpe, R-Alliance, who voted against the measure, offered an amendment which would have excluded school teachers from serving in the General Assembly.

Indirectly, Thorpe was pointing out that there appears nothing wrong with teachers' serving in the legislature where they vote on how much money their profession is to receive.

More directly, Thorpe was saying that if teachers are able to influence legislation which is related directly to their livelihoods — which is more of a confict-of-interest question than one of ethics — then there should be no law regulating the nonlegislative activities of attorneys.

Question Unanswered

Still, the question as to why a code of ethics bill is needed after 107 sessions never was asked. There is an argument that perhaps such legislation is needed less now than ever.

For one, the current session, as those in the last few years, are better covered by the press and television and radio than formerly. Logically, increased press coverage should act to stem any funny business.

Secondly, with the advent of reapportionment, most legislators, with the exception of the rural bloc lawmakers, find campaigning somewhat easier than before because of smaller districts. Pre-reapportionment days saw representatives running countywide with attendant higher campaign costs.

See Less Reason

With the possibility of lower campaign costs there should be less reason for selling votes in exchange for election expenses. Additionally, some say, with legislative salaries now at a respectable level, there is less reason why a lawmaker would be willing to compromise his integrity for the opportunity to ingratiate himself to a potential campaign contributor.

"We've got laws to get guys who are dumb enough to get caught selling their votes," Thorpe charged. "This legislation would only get the person trying to make a living.

"We're only kidding the public."

There's a possibility some more penetrating questions concerning the bill will be asked in the Senate, where leaders have promised a quick hearing.

If the same kind of caution is exercised there for fear opposing such a measure is tantamount to admitting here is guilt in the General Assembly, the measure very well could become law—a law, some critics charge, which would not work and only lull legislators and the public alike into a false sense of security.

The desire of several legislators for annual budgets did not die with the passage last week of the appropriations bill which contained a drastic change in the composition of the State Controlling Board.

"Utopia will not come to state financing until we have state budgets," charged State Sen. Oliver Ocasek, D-Northfield, who helped in two joint conference committees to forge a compromise over the Controlling Board's activities.

To Try Again

He said he'll try again next session to get legislation adopted to put the state on annual budgets.

"I challenge you to show me another governmental unit which is on two-year appropriations," Ocasek said.

State Sen. Ralph S. Regual, R-Navarre, -another -long-time proponent of annual budgets, thinks, however, that a stipulation in the appropriations bill which mandates six-month reviews of all departmental expenditures may be just as good as annual budgets.

The two men are sponsoring legislation introduced earlier in the session which would put the state on annual financing.

Defeat for Rhodes?

The Rhodes administration, Ocasek claims, took a beating over the Controlling Board issue. The Summit County Democrat, who for 11 years has tried to get more legislative representation on the Controlling Board, said the lgislature simply "decided that it was time to assume responsibility for control over its appropriations."

The new Controlling Board will be comprised of six legislators — two from the minority — and the finance director. Formerly, only two of the five-member board were legislators — the chairmen of the House and Senate Finance committees.

The administration, critics say, was given too much authority over how money was transferred among departments and how it was released by the Controlling Board.

Cites GOP Backing

Ocasek said composition of the Controlling Board could not have been changed if it had not been for six Republicans who "demanded the legislature have a voice in the financial affairs of the state."

He identified the six as State Sens. Robin T. Turner of Marion, William W. Taft of Cleveland, James K. Leedy of Wooster, Walter E. Powell of Fairfield, Stanley J. Aronoff and Clara E. Weisenborn of Dayton.

FDA Halts Process Of Food 'Radiation'

WASHINGTON (AP) — The once-heralded use of radiation to extend the shelf life of foods has been shelved by the Agriculture Department.

An order to meat packers last week followed an earlier determination by the Food and Drug Administration that gamma radiation needed more study as a preservative process for meat products such as canned bacon.

Bacon was the last product authorized for radiation testing. A decade ago the Army, with cooperation of the Atomic Energy Commission, launched an ambitious food irradiation project.

Sample quantities of a variety of foods were treated and test eaten. High military officials pronounced the radiated rations tasty, but lower ranking military people were less enthusiastic.

Irradiated food was never produced in commercial quantities. Now the government says more data on possible health hazards will be required before it will approve production for general consumption.

100,000 Witnesses Ready For Assembly

NEW YORK (AP) — More than 100,000 Jehovah's Witnesses gather today in Yankee Stadium for the opening of their week-long assembly, titled "Peace on Earth."

Kitchens were set up Sunday night where 250,000 meals will be prepared and tents were erected for special services in French and Spanish. Services in 14 other languages will be held during the meeting, one of eight such gatherings around the country this month.

Union Hit By Masheter For $5 Dues

COLUMBUS, Ohio (AP) — State Highway Director P. E. Masheter say the Joint Organibing Council of Operating Engineers and Laborers Union only is interested in collecting Masheter said Saturday that union dues from highway workers.

$1 a month from 2,400 people is a lot of money, and intimated that it could be used as a treasury chest for supporting political candidates.

Masheter's charges were the latest in a continuing exchange with the union in its fight to gain recognition as the bargaining agent for state highway workers.

The labor group earlier had charged that the political "spoils system" is rampant in the highway department and said workers have been coerced into making political contributions under the current administration.

The union said it is planning a court suiit to force the state to repay "millions of dollars" collected from employes.

Masheter, who has steadfastly refused to recognize the union or grant dues checkoff, said the million dollar figure "shows how assinine the union can be."

While acknowledging that some employes may have made political contributions, Masheter said no pressure to do so has come from his office.

Meanwhile, the union said it would carry on with its recognition fight with one-day work stoppages at various state highway garages.

Albert Gross, international representative of the union, said the first stoppage would be conducted Tuesday at the Division 4 headquarters in Ravenna.

Will Meet At Lisbon

LISBON — The Lisbon board of education will act on the resignations of Martha Sprague high school commercial teacher, and Ruth Ulbrick, special education teacher at McKinley School, during its meeting at 7:30 p.m. Tuesday in the administration building. A public hearing on the budget for next year will be held at 7.

Boy Tosses Money Out Window Of Auto

BALTIMORE, Md. (AP) — Residents of a suburban neighborhood were sent into a money-grabbing tizzy after a 2-year-old boy tossed a cookie box containing $2,645 out of a passing car.

Citizens ran from their homes and dodged traffic to scoop up fistfuls of currency that wafted out of the cookie box as other cars ran over it.

The money was tossed out Saturday by Richard Brown, whose mother said the family was on its way to a drive-in movie and took its savings along for safekeeping.

Some resident had second thoughts, called police and turned over $2,197 to authorities, who returned the money to the Browns.

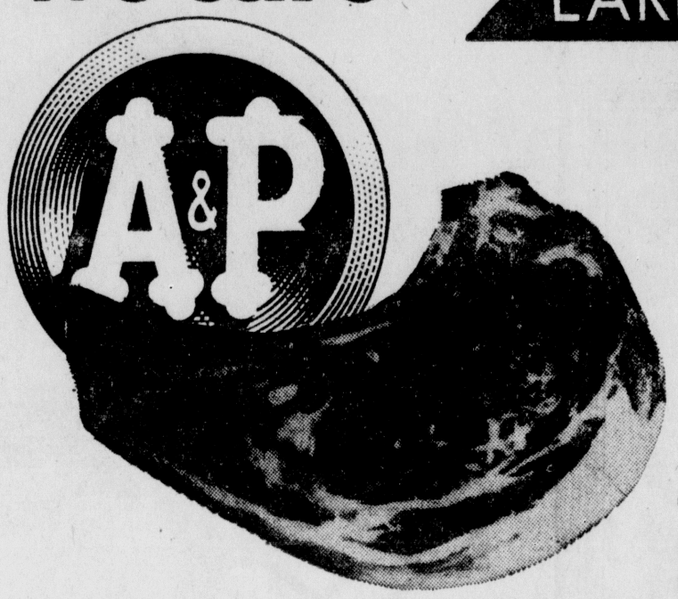

Police theorize the bulk of the remaining $448 was taken by an unidentified motorist who stopped during the race for the money and convinced some of the collectors that he had lost the loot.

The Ellington Touch

OTTAWA (AP) — About 2,300 persons filled Ottawa's National Arts Center Sunday night to hear Duke Ellington and his 16-piece orchestra. The 70-year-old pianist-composer played his old classics and one of his latest compositions, "Belle Africaine," which he composed for a trip to Senegal.

The first Nobel prizes for peace and literature were established in 1901.

After Assassination

Kenya Leaders Struggle To Avoid Tribal Warfare

NAIROBI (AP) — Small clashes between Luo and Kikuyu tribesmen flared Sunday in the wake of Tom Mboya's assassination and a government minister warned tribal warfare threatens Kenya.

Finance Minister Odero Jowi, who became the leading Luo in government with Mboya's death, said: "This is a tribal situation. We are going to have to fight hard to contain it. We have made appeals to our people for calm and order."

The Kikuyus, largest and most powerful tribe in Kenya, are led by President Joseph Kenyatta. The Luos had been led by Mboya, 38, minister of planning and economic develpoment.

A Kikuyu who came to Mboya's house to view the open coffin was attacked by part of the wailing crowd of Luo mourners. When police tried to intervene, a stone-throwing mob forced them to leave the grounds.

Tribal disturbances in two other cities were quickly broken by police. Two persons were reported injured and seven arrested in one clash.

Every available policeman was on duty throughout the country with an officer posted at every street corner in Nairobi, as the police pressed their nationwide hunt for the man who killed Mboya as he left a pharmacy in downtown Nairobi Saturday.

A police spokesman said there was "nothing new to report on our investigation." He was unable to give a description of Mboya's attacker or the car in which he fled.

Mboya was a popular politician both at home and throughout the world where he often represented Kenya at conferences. He lectured in New York last March.

Details of Mboya's funeral have not been announced. Thousands of his tribesmen are keeping a vigil beside the open coffin, in a garden near Mboya's sprawling single-story house in the suburb of Lavington.

Some sat weeping. Others flung themselves to the ground beating the earth in despair. One man carrying a giant portrait of Mboya did a traditional death dance in the driveway of the house before the body arrived, then placed the portrait on the roof of the hearse.

Thief Obtains Cash And Gun

An East End home was looted of $9 in change, a .22-caliber revolver and a box of cartridges in an entry some time between Thursday and this morning, police reported.

The intruder entered the home of George Penny of 1625 Alpha St. through an unlocked window on the west side and removed the property from a night table in the bedroom, officers said.

Three petty thefts and a vandalism incident also were reported to police over the weekend.

Three chrome wheels and three tires were stolen from a wrecked auto stored on a lot at Leo's Garage, operated by Leo Fiorillo of Virginia Ave., police said. The theft was reported Saturday afternoon.

George Rowley of 713 Garner Ave. told officers two 7.75-by-14 tires were stolen from his 1963 model car while it was parked on Pennsylvania Ave. Ext. between June 27 and Sunday afternoon.

Allen Johnson of Lisbon RD 3 reported to police a vandal removed two spark pug wires from his 1968 model auto and deflated three of the tires while the vehicle was parked in Summit Ln. near City Hospital about 10:20 p.m. Sunday.

James Dickey of 725 Valley Ave. told police the battery was stolen from his 1967 model auto while it was parked at his home between 10:10 p.m. Friday and 8 a.m. Saturday.

Coin Club To Meet

STEUBENVILLE — The Ohio Valley Coin Association will meet next Sunday at 2 p.m. in the CIO Hall here.

Ohio Traffic Toll Hits 35 On Weekend

By The Associated Press

At least 35 persons died on Ohio's streets and highways during the long Fourth of July weekend.

The total was just three short of the state Department of Highway Safety's grim forecast of 38 dead.

The toll, tabulated by The Associated Press from 6 p.m. Thursday until midnight Sunday, included two quadruple-death crashes and one double-fatality accident.

As is frequently the case, the majority of the deaths occurred in accidents involving only one vehicle. More than half of the victims were youngsters.

Drowns In Pool

COLUMBUS, Ohio (AP) — A one-year-old girl, Bea Elkins, drowned Sunday in a small backyard wading pool.

Her mother, Mrs. David Elkins, 26, told police the child apparently fell into the pool while she was inside the house preparing a meal.

Defense Experts Say

Cutbacks In Manpower Could Pay For Weapons

WASHINGTON (AP) — Congressional defense experts, laying the foundation for massive development of new weapons, are counting on a substantial cutback in the armed forces to open the way for financing the hardware without an increase in military spending.

This is the clear message of two recent statements by Sen. John Stennis, D-Miss., chairman of the Armed Services Committee, and from background discussions with other key congressional defense experts.

They indicate a million-man cutback in the 3.5 million man military establishment would save some $10 billion annually of the $80 billion the Pentagon now spends.

Between this sum and the anticipated decline over the next few years in the $25 billion annual cost of the Vietnam war, more than enough funds would be available to pay for new missile systems, long-range bombers, submarines and even the controversial Safeguard missile defense program.

It would mean most of the $10 billion-$15 billion annual fiscal dividend—the extra government revenue available from the growth of the economy—could be channeled into domestic projects.

Hearings last year by the Senate preparedness subcommittee laid the basis for increased spending over the next decade for military hardware, especially on items deferred in recent years because of war costs.

The current Pentagon budget includes go-ahead funds for the Advanced Manned Strategic Aircraft, a new bomber long sought by the Air Force; and to convert land-based Minuteman II intercontinental ballistic missiles and sea-based Polarises into the multiwarhead Minuteman IIIs and Poseidons.

In addition, the Navy laid out plans for a major new submarine program, the Undersea Long-range Missile System, which would become operational in the late 1970s.

Some 60 per cent of the Pentagon budget currently goes for personnel, operations and maintenance.

In a statement to the Senate June 24, Stennis noted that in "ordinary times" there is no need for anything approaching the 3.5 million man force.

"I am also convinced that the surest, quickest and most effective way to reduce the tremendous military budget is to reduce the number of military personnel.

"Since military pay and allowances alone now account for about one-third of overall military expenditures," he added, "the budget will go down rapidly as the size of the force is decreased."

A week later, in a lengthy defense of past Pentagon weapons expenditures, Stennis said "I think we would make a mistake not to have frontline weapons. We must have the best."

Stennis is known to feel the nation's security is more dependent on up-to-date weapons than on a large standing force.

A cutback in troops would include, in addiion to Vietnam, a substantial reduction in the 250,000-man U.S. force in Europe. This level has been under fire in the Senate because of its drain on the U.S. balance of payments as well as the feeling that Europeans should assume a larger share of their defense.

Fire Routs Family

TOLEDO, Ohio (AP)— Sixteen occupants of a west side nursing home were routed Sunday by a fire that started in the building's kitchen.

None of the occupants was injured by the fire, which caused an estimated $65,000 damage.

Man Electrocuted

TOLEDO, Ohio (AP) — Carl Felser, 37, a Toledo Edison lineman, was electrocuted Sunday while repairing power lines downed Friday by a vicious thunderstorm that hit this area.

Shrapnel, as a form of military charge, was invented by Lieutenant Henry Shrapnel (1761-1842). The shell, containing a number of balls and a charge of powder that burst the shell, was first used by the British Army in Surinam in 1804.

Cuban Visit Set By Russian Unit

MOSCOW (AP) — A Soviet naval squadron will visit Cuba July 20-27 at the invitation of Havana, the official Soviet news agency Tass announced today. Western military experts said it would be the closest visit to the United States ever by Soviet warships.

The brief Tass announcement said the squadron would consist of a rocket-carrying cruiser, two submarines, a tender and a tanker. Tass said the ships now are making a training cruise in the central Atlantic.

The appearance of Soviet warships in Cuba, 90 miles from the United States, seemed intended to back up the Soviet Union's claim that it is now a world naval power. Western observers also speculated it might be intended as a form of retaliation for President Nixon's planned visit to Romania in August.

Mrs. Rebecca Felton of Georgia, in 1922, was the first woman to serve in the U.S. Senate.

Tips Offered On Garage Storage

By VIVIAN BROWN
AP Newsfeatures Writer

You can live in the garage and use the house for storage and maybe live happily ever after.

At times, it seems that the far-out solution is the only practical one to the outdoor storage problem that has been complicated by the indoor storage problem.

New houses offer less storage space for big items. Crawl space has replaced the old - fashioned roomy basement in many big houses. Architects and builders utilize every square inch of space for living in these days of rising costs.

The garage has been latched on to for storage, but you can't see the family car for the clutter. The average family on a small lot doesn't have space for a tool house, and in some areas, such outbuildings aren't permitted, so it is a question of the garage or rot, rust or warp.

—:—

A PLACE for everything in the garage may solve a lot of problems. One family hangs a canoe from the ceiling over the car, another straps the camping equipment from exposed garage beams. But modern garages are likely to be less headroomy.

You can make better use of your space by planning garage storage, says Stanley Schuler in a new book "The Complete Book of Closets and Storage." The book offers ideas for getting the maximum storage out of the garage above your head attic, kitchen and bathroom.

One or more shelves, 24 to 30 inches deep, may be built around the two sides and back of the garage above you rhead (about 6½ feet above the garage floor). Wider high - up shelves can be built down the center of the garage over the space between cars.

Shelf edges that are not supported from the wall should be secured by 2 by 2s that are bolt ed to the ceiling joists.

—:—

A RACK for storing screens, oars, water skis, small rowboats and other long articles can be hung from the ceiling over each automobile. Over the car, the rack can be dropped to within 5 feet of the floor (provided the antenna is not extended to its full heigh) but in the passage space, the rack should clear the floor by 6½ feet.

Garage walls may be covered with holed board to give hanging space for every kind of tool. A 3-foot strip of board may be fastened around the walls 6 feet above the floor.

Garden tools such as hand mowers and extension ladders can be hung from 4-inch boards nailed to exposed studs by means of steel brackets which are slipped over the top edges of the boards.

Bicycles can be stored in home made bike racks outdoors in season, and when stored for a long term may be hung from the joists in the garage or from long wall brackets.

People with carports may find storage space within the shed by building a closet that extends either the length or width of the carport.

A closet 7 feet high and 3 feet deep (large enough for garden furniture and other bulky items) with a floor four inches above the ground to keep out water is practical, Schuler explains. Bi-fold doors are suggested to give better access to more space and because "they withstand the weather better than folding doors."

Patching Ideas Are Offered For Concrete Patio

AP Newsfeatures

Q.—We have a small concrete patio that is in rather bad condition, with a number of cracks running through it.

The cracks are very thin, but I'm afraid that if I patch them, the patching concrete will look new compared with the old surace and will stand out more than ever. In fact, I had this happen with a patch job I did several years ago.

I've called in a contractor to put on a new surface, but he says it will have to be fairly thick and I don't want to change the height of the concrete. He told me about a product which can be put on one-eighth of an inch thick — something which has ceramic particles mixed with epoxy resins. Can you tell me something about this and whether a one-eighth of an inch covering will hold up well?

A.—We have seen several terraces covered with this material, which is mixed, poured on and then troweled like regular cement. It seems to be in excellent shape despite heavy usage. In fact, the manufacturer claims it is many times stronger than concrete and is unaffected by extremes of temperature. Also, it comes in several colors. But you'll have to make the decision yourself after weighing costs. If you're handy and have worked with concrete, there's a considerable savings in doing it yourself.

—:—

Q.— HAVE just made a bunk bed for my two children, using cedar wood. My wife wants it stained, then given a coat of something that isn't too glossy. What should I use to finish it?

A.—That's almost like a woman asking what kind of dress she should wear to a party. There are a dozen answers that would be correct. But as long as your wife wants the wood stained, first give the cedar a very light coat of shellac— about three parts of denatured alcohol to one part of clear or white shellac. Sand very, very lightly with a very fine grade of sandpaper. Wipe off all grit particles, then stain. The shellac will help to make the stain more uniform than it would be otherwise.

After waiting at least 24 hours, give the bed another coat of shellac, this time in a 50-50 mixture with denatured alcohol.

If your wife thinks there is too much gloss, sand the final coat, again lightly and again with a fine grade of sandpaper. Other alternatives to rub down the final coat with powdered pumice and oil or to make the final coat one of the satin-finish varnishes.

Bishop's Kin Dies

YOUNGSTOWN, Ohio (AP)—Mrs. Catherine V. Malone, 83, of Youngstown, mother of Bishop James W. Malone of the Catholic Diocese of Youngstown, died Sunday in St. Elizabeth Hospital.

Two thousand years ago, the average life span was about 22 years. In the Middle Ages the average person might expect to live to the age of 33. In 1840 life expectancy was 41 years. At the beginning of this century 49 years was the end of the road, and today life expectancy in the U. S. is almost 70 years.

Steps Given For Finishing Of Table Top

By DOUGLAS TUOMEY

There is one solid, sensible remedy for a table top that has been damaged: put a new finish on it. It is a job that can be done properly by any adult.

Step one: wrap a piece of sandpaper around a block of wood and sand down the damaged surface of the table. This should be done until you have a surface of raw, unmarred wood.

Step two: apply a coat of varnish-stain (mahogany, walnut, maple or whatever wood is involved), brushing it on, with the grain, to a deep, even coating. Let this dry for one day, sand again very lightly and then apply a second coat. Let the second coat dry for a full day, and then rub it off with a wad of steel wool. This will take off the heavy-varnish, glasslike finish. When this is finished, apply a good paste wax and rub the surface to a semi-gloss finish.

Furniture thus finished will have the deep, semi-glossy surface seen on the best of hand-rubbed pieces.

Graduate Eyes Master's Degree

Miss Karen Torrence, daughter of Mrs. Lee Torrence of New Matamoras and Warren Torrence of East Liverpool, was graduated summa cum laude last month from the Ohio University, Athens. She received a bachelor of science degree in education.

Miss Torrence is a member of Kappa Delta Pi, national education honorary, and plans to return to the university in September to work toward her master's degree. She was on the dean's list all four years at the university.

At the time that Abraham Lincoln made his immortal address at Gettysburg, the speaker ahead of him, Sen. Edward Everett, spoke for one hour and 57 minutes. Lincoln's famous address to the 15,000 people gathered there lasted only eight minutes.

Kitchen Favorites

Romantics believe love a favored topic. We find poets for centuries devoted as many lines to food and thank them for "The way to a man's heart is through his stomach."

One delectable fungus inspired Martial, a Roman writer of epigrams, to note, "Gold and silver and dresses may be trusted to a messenger, but not a mushroom, because he will eat it on the way."

Fresh mushrooms, available in most markets, are a crunchy, tasty way to dress any dish and are bereft of calories.

For success with mushrooms keep fresh ones refrigerated until use and rinse them quickly in clear water. Modern cultivated mushrooms have delicate skins so peeling them is a waste of time and fine flavor. When cooking mushrooms, pat them dry and cook briefly, three to five minutes is enough for sauteeing. Fresh mushrooms, incidentally, are good raw or cooked.

HAM-STUFFED FRESH MUSHROOMS

1 pound (18 to 20 medium-sized fresh mushrooms
2 tablespoons finely chopped mushroom stems
1 tablespoon butter or margarine
3 tablespoons fine dry bread crumbs
¼ cup finely chopped fresh tomato
2 tablespoons deviled ham
1 tablespoon grated sharp Cheddar cheese
1 tablespoon parsley flakes
1 teaspoon lemon juice
½ teaspoon salt
⅛ teaspoon ground black pepper

Rinse, pat dry and remove stems from mushrooms. Finely chop 2 tablespoons of the stems. eat butter in a skillet; add chopped stems and saute. Mix in remaining ingredients. Stuff mixture into mushroom caps. Broil on baking sheet until brown (5 to 10 minutes). Serve hot. Makes 16 to 20.

The international boundary line between the United States and Mexico is approximately 2,013 miles long.

Phils, Expos Play Fast

NL Expansion Club Pitchers Shine; 4 Games Between Top Four In West

By The Associated Press

The pennant race has passed them by, but Gary Wasewski and Dick Kelley have discovered the best way to kill time until another one comes along.

While the top teams in the National League slid backward Sunday, Montreal's Waslewski and San Diego's Kelley hurled one-hitters to salvage doubleheader spits for the lowly expansion clubs.

After Philadelphia trounced the Expos 13-2 in their opener, Waslewski zipped past the Phillies 5-0 in 96 minutes, facing the minimum 27 batters in the quickest major league game in two years.

Houston shaded San Diego 3-2 in the first game, but Kelley beat the Astros 1-0 in a 2:01 duel with Jack Billingham, who pitched hitless ball for 6 1-3 innings in his first 1969 start.

Elsewhere, St. Louis toppled Chicago's East Division leaders twice, 4-2 and 6-3; San Francisco swept Atlanta's West Division pace-setters 3-1 and 5-0; the New York Mets downed Pittsburgh 8-7 to tighten the East race and Cincinnati drubbed Los Angeles 8-1 to further snarl the West chase.

Waslewski, a former Boston World Series standout acquired by the Expos from the Cardinals last month, gave up a fifth-inning single by Rick Joseph and walked Deron Johnson in the eighth. Both baserunners were erased in double plays as the 27-year-old right-hander nailed his first victory of the season and first shutout in the majors.

He also produced his first two RBI in the majors with a seventh-inning double.

The Phillies shelled Bill Stoneman, who pitched an earlier no-hitter for Montreal, and two relievers for 13 runs in the first four innings of the opener and coasted behind rookie Billy Champion. Tony Taylor paced the winners' 16-hit assault with a triple and three singles.

Kelley, a 29-year-old southpaw picked up from Atlanta in the expansion draft, limited the Astros to firewalks and an infield hit by Denis Menke in the second inning, registering his first victory since June 4. Ed Spiezio's pinch single delivered the game's only run with two out in the ninth.

Billingham, used exclusively in relief until Sunday, pitched perfect ball for five innings and allowed four hits in all, the first a two-out double by Ollie Brown in the seventh.

The Astros pulled out the openen when San Diego second baseman Jose Arcia let Doug Rader's bases-loaded grounder get past him for an error in the eighth, allowing the trying and winning runs to score.

Veteran Bill White scored three runs and rookie Steve Huntz knocked in two with a bases-loaded single as the Cardinals tripped the Cubs in their opener. Steve Carlton, 10-5, had a shutout going until the ninth, when he needed relief help from Joe Hoerner.

Mike Shannon's three-run homer, a two-run wallop by Joe Torre and rookie Chuck Taylor's two-hit relief pitching over the final 6 1-3 innings keyed the second game victory, which reduced the Cubs' margin over second place New York to five games.

The double setback left Atlanta one-half game up on second place Los Angeles, 3½ ahead of the Giants and four in front of the fourth place Reds.

Donn Clendenon, a former Pirate, drove in four runs with a homer and double, leading the Mets past Pittsburgh for their fifth straight victory.

Surprising Seattle In Third Place, Minnesota Completes Sweep Of A's

By HAL BOCK
Associated Press Sports Writer

The Seattle Pilots had fate on their side, which isn't bad if you can't have . . . say . . . Harmon Killebrew. The Minnesota Twins had Killebrew working for them and the way he hits the ball, well, who needs fate?

The Pilots lost two of their starters on first inning injuries against Kansas City Sunday, but replacements Don Mincher and Steve Hovley each delivered three hits in Seattle's 9-3 romp over Minnesota.

Killebrew, leading the majors in runs batted in, clouted a two-run homer that capped a five-run Minnesota rally in the seventh inning and carried the Twins to a 7-6 victory over Oakland.

Both were important victories with Seattle hanging on to third place in the American League's West Division and Minnesota completing a three game sweep of the Athletics to take over first place in the West.

Elsewhere Sunday, Washington shut out Boston 5-0, New York trimmed Cleveland 4-2, Detroit edged Baltimore 5-4 and California nipped Chicago 2-1.

Seattle regularly platoons Mincher at first base with Mike Hegan, and with left-hander Bill Butler working for Kansas City it was Mincher's turn to sit. But Hegan pulled a leg muscle running out a first inning grounder, and when the Pilots took the field Mincher was the first baseman.

The big guy promptly tossed the lefty-righty strategy for a long loss by tagging two towering 400-foot homers and a double to drive in four runs.

Meanwhile, Tommy Harper, Seattle's center fielder, ran into the fence chasing Mike Fiore's fly in the first, and it took five stitches to close the cut over his right eye. Hovley took over and delivered three straight hits, scoring one run and driving in another.

Killebrew unloaded his 23rd homer of the year, boosting his RBI total to 82, as the Twins caught the Athletics with a seventh inning rally.

Oakland had hopped into a 6-2 lead, three of the runs scoring on Danny Cater's homer. But Minnesota bounced back in the seventh. Leo Cardenas was hit by a pitch and came around on a wild pitch and Cesar Toaar's single. Graig Nettles walked and a pair of infield outs and Tony Oliva's single drove two more in before Killebrew connected.

The three-game sweep moved the Twins two games ahead of Oakland in the West Division race.

Denny McLain became the American League's first 13-game winner as Detroit hung on to beat Baltimore. Consecutive fifth inning homers by Dick McAuliffe and Tom Tresh broke a tie and headed the Tigers toward their fifth victory in the last six games.

Boog Powell walloped a 500-foot homer and Elrod Hendricks also connected for the Orioles, who lost their fourth game in the last five but still lead the American League East by 10 games.

WANTED!
MEN—WOMEN

age 18 and over. Prepare now for U.S. Civil Service job openings during the next 12 months.

Government positions pay high starting salaries. They provide much greater security than private employment and excellent opportunity for advancement. Many positions require little or no specialized education or experience.

But to get one of these jobs, you must pass a test. The competition is keen and in some cases only one out of five pass.

Lincoln Service has helped thousands prepare for these tests every year since 1948. It is one of the largest and oldest privately owned schools of its kind and is not connected with the Government.

For FREE booklet on Government jobs, including list of positions and salaries, fill out coupon and mail at once — TODAY.

You will also get full details on how you can prepare yourself for these tests.
Don't delay — ACT NOW!

LINCOLN SERVICE, Dept. 42-3B
Pekin, Illinois.

I am very much interested. Please send me absolutely FREE (1) A list of U.S. Government positions and salaries; (2) Information on how to qualify for a U.S. Government Job.

Wins Buick Open

Dave Hill Plays Less Golf But With More Confidence

By BOB GREEN
Associated Press Sports Writer

FLINT, Mich (AP) — Dave Hill is playing golf less and enjoying it more.

The reduced schedule has "helped my confidence, helped my game, helped my golf and helped my family life. The kids don't have to peep around corners to find out what's going on," Hill said Sunday after making the Buick Open his second tour victory of the season.

And he paid tribute to his wife, Virginia, for the new outlook.

My wife had been telling me for years that I'd been working too hard at it," the darkly handsome, outspoken character said. "I'd been playing golf, either playing or practicing for nine years. Every day. Didn't miss a day.

"But I didn't pay any attention to her. What did she know?

"But after the last tournament last year I was a wreck, mentally, physically, emotionally. So I gave my clubs to a neighbor and he locked 'em up in his garage. Wouldn't give them to me no matter what. I didn't play for two months.

"And I came back his year playing like I'd dreamed of playing."

The figures bear him out. He's now earned over $98,000 this year, second only to Gene Littler, is one of five multiple winners this year, has been in the top 10 in five of his last seven tournaments and in the top 10 eight times this year.

And he came into the $125,000 Buick Open with only one start—the U.S. Open—since he'd won the Memphis Open title about five weeks ago.

He'd taken the time off to investigate a weight loss, he'd dropped 25 pounds to 140 since the first of the year, and found it was nerves. So he increased his smoking to about two packs a day.

"It helps calm me down," he said. "It works."

He went through almost three packs during the long haul of 36 holes in Sunday's double round, made necessary when Friday's play was washed out by a thundershower.

He finished two strokes ahead of Frank Beard, who had a closing 71 for 279. Homero Blancas, twice tied for the lead but the victim of a double bogey on the finishing hole, had a 72 for 280 and third place.

He was followed by Dan Sikes, 71 for 281, and Terry Dill, 71 for 282.

Hill, 32, an 11-year veteran and a refugee from the caddy ranks, is a bluntly spoken character whose pronouncements have put him in occasional trouble with the PGA. He was suspended for a week earlier this year and has a total of two months and one week of suspensions.

Competition Up, Too

Wimbledon Tourney Is Test Of Endurance

By ROBERT JONES

WIMBLEDON, England (AP) — The Wimbledon tennis championships have always been a test of endurance as well as of tennis ability, but never so much as this year. And they don't promise to get much easier.

By the time Rod Laver of Australia had beaten John Newcombe of Australia 6-4, 5-7, 6-4, 6-4 Saturday for the men's singles title, no less than 28 sets in the men's singles had gone 20 games or more.

The men's singles and doubles all run to the best-of-five sets, and there were no 10 minute breaks halfway through. as in most big tournaments.

But despite the no-break rule, the long matches meant a lot of games were played in failing light on near-deserted courts, and a number of matches had to be halted in the evening and restarted the next morning.

And then there is the sudden leap upwards in the general standards of play since the gates were opened to professionals last year.

Ken Rosewall, who returned to Wimbledon last year after 11 years in the pro ranks, called the competition in this year's championships twice as good as it was in the mid-1950s.

"In my amateur days, plenty of countries had one good player," he said. "Now they have several—with plenty of youngsters coming along.

"This means you don't get the easy matches all the time—and it's certainly an endurance test to reach the latter rounds."

Pancho Gonzales, 41, who turned pro before he had won a Wimbledon title, echoed Rosewall with a lot more feeling after struggling through to win longest match ever seen at Wimbledon, 112 games, against Charles Pasarell of the United States in the first round. The match had to be halted in twilight and continued the next morning, and Gonzales complained bitterly

"With the standard so high, and the matches likely to go on so long, why don't they do something about it?" he asked.

"Why do they have start at 2 p.m.—why can't they start at mid-day and put a limit on the time the last matches start in the evenings? "At least that would mean matches would be able to finish in decent light, and no one would have to play on when they couldn't see the ball properly."

Tournament referee Capt. Mike Gibson conceded that Gonzales had a good point.

"We'll have to think hard about the starting time," he said. "At the moment, we start at 2 p.m. because it gives the ground staff more time to spruce the place up and get everything ready. And it's a throwback to the old days when people would do a morning's work in the city, then pop out to Wimbledon to see an afternoon's tennis.

"We know those days are gone, of course. We like a bit of tradition here, but you can't be ruled by tradition and maybe we'll have to alter our ideas somewhere."

Woodbine And Littens Battle For Pony League Title

A playoff game is set for tonight to decide the champion in the East Liverpool Pony League.

Woodbine won its last two games to tie Littens for the second half championship after Littens had won the first half title.

If Littens wins tonight's game at Dixonville, it will be the Pony League champions. If Woodbine comes out on top, a best two-out-of-three game series will follow to decide the Pony League champ.

In Woodbine's two most recent victories, the team was forced to come from behind both times.

In beating Sevy's, Woodbine overcame an eight-run second inning by the losers. Woodbine staged a five-run rally in the fifth to win that contest, 13-12.

In another free-swing affair, Woodbine whipped Burbick's, 12-7.

George Hanlon and Wayne Talbott got the victories while Tom Briggs collected two hits in both games.

That playoff game tonight is scheduled for 6:00 at Dixonville.

Edwards Killed

NEW SMYRNA BEACH, Fla. (AP) — Stock car driver Marion Edwards of Hialeah, Fla., was killed Sunday night when his 1966 Chevelle crashed into a wall at the New Smyrna Beach Speedway and exploded, the Volusia County Sheriff's Department said.

Johncock Survives Duel To Beat A. J. Foyt In 150

CASTLE ROCK, Colo. (AP) — Gordon Johncock, who finished a humiliating last place in the Rocky Mountain 150 last year, survived a wheel-to-wheel duel with defending champion A. J. Foyt in the closing minutes for a masterful victory in the event at Continental Divide raceways Sunday.

Johncock toured the 10-turn, 2.66-mile road course for Indianapolis-type cars in one hour, 47 minutes and 52 seconds, avreaging 88.44 miles per hour for a U.S. Auto Club record.

Johncock took his powder-blue Gerhardt-Ford from fifth spot on the starting grid into the lead with less than 40 miles gone in the race, overtaking pole winner Dan Gurney, Indianapolis winner Mario Andretti, Roger McClusky and Bobby Unser.

The gruelling road course took its toll of cars, with only seven of the original 19 entries still running when the checkered flag fell to Johncock.

Bob Unser, in an Eagle Chevrolet, dropped out early after a power failure.

Al Unser left the race later with suspension problems, and Andretti had an oil loss and then was disqualified by USAC officials after they said they saw his crew add oil to the car, a rule violation.

Gurney, who led for 14 laps in his eagle ford, finished second, Foyt third and Jerry Grant of Solana Beach, Calif., was fourth.

Sylvania Course Flooded; Short Tourney Possible

TOLEDO, Ohio (AP)—Flood conditions at the suburban Sylvania Country Club threatens to shorten the 63rd annual Ohio Amateur golf tournament, schedule to begin Tuesday.

More rain could wash out the championships.

Six holes at Sylvania still are partially under water following heavy rains that hit this area Friday. Only 12 holes were playable Sunday.

To compound matters, it rained on and off Sunday and the Weather Bureau was forecasting more rain for today and Tuesday.

W. H. Margraf of Columbus, secretary-treasurer of the Ohio Golf Association, said the course's first three holes definitely would not be playable for the practice round scheduled today by the 208-man field.

"If the first three holes are not playable by Tuesday and Wednesday," Margraf said, we will play 15 holes on those days."

Instead of making the cut at 36 holes to the low 60 players and ties, it would be made at the end of 30 holes, he said.

"We definitely want to have a tournament, even if it has to be shortened," Margraf said.

"We'll just have to play it by ear until Tuesday, but we could play 36 holes on Friday instead of 18 to complete the tournament. If we get more rain here, as forecast, I don't know what we'll do."

Two other OGA tournaments this year were shortened by flooded conditions. They were the state Seniors meet at Dayton in May and the Pre-Seniors at Springfield in June.

Only OGA member club players with handicaps of five and under are eligible to participate in the medal play tourney. Put 13 of Ohio's top public links marksmen will participate on an invitational basis.

Defending champion Bob Lewis Jr., 24, of Warren, was the first player to arrive at the tournament site and spashed around 12 holes Sunday in a tune-up round.

TWO YOUNG LOCAL golfers will be playing in their first Ohio Amature Golf Tournament this week at Sylvania Golf Course near Toleno. Rick Metz (left) and Bill Pickin of the East Liverpool Country Club will tee off Tuesday in the Ohio Amateur. Dr. A. J. Cloran also is entered in the tournament. Cloran is one of the state golf directors.

Petty's Tires Prime Worry In Car Race

DOVER, Del. (AP) — Richard Petty, king of the stock car racers in 1967, says his biggest worry in winning the first race on the nation's newest mile track was tires.

"I got blisters on three right front tires," said Petty after rolling up an easy victory Sunday in the Mason-Dixon 300, which inaugurated the Dover Downs International Speedway.

Ironically a blowout forced David Pearson, the man who tire-tested the track last month, out of the NASCAR race on the 65th lap. Pearson, who set a qualifying record, scraped a wall on the far turn after the blowout.

Lee Roy Yarbrough, fresh from his July 4 victory in the Firecracker 400 in Daytona Beach, took the lead after Pearson went out but was dogged all the way by Petty until he also was forced out of the race.

Petty posted an average speed of 115.772 miles per hour in finishing sir laps ahead of Sonny Hutchins of Richmond, Va. James Hylton of Inman, S.C., was third.

Chenoweth Goes To Big Time

MADISON, Ind. (AP) — Dean Chenoweth, who has a houseful of trophies for small boat racing, picked up his first victory Sunday on the unlimited hydroplane circuit, the big league for Gold Cup class speedsters.

The English aircraft engine ran perfectly Sunday as Chenoweth carried off the Indiana Governor's Cup with a split heat victory in his white boat, Myr's Special.

Adamowicz Gets Win

SEATTLE (AP)—Tony Adamowicz of Wilton, Conn., scored his first Continental Series Formula A racing victory Sunday in the $22,500 Seattle Invitational Raceway Grand Prix.

Vertex Colt Finishes 4th In Monmouth Park Race

By ED SCHUYLER JR.
Associated Press Sports Writer

The Futurity, Champagne, Flamingo and Florida Derby were the races of wine and roses for Top Knight. But the Lamplighter Handicap was just another flat, withered performance that leaves his ability and future in question.

Mrs. Stephen B. Wilson's Vertex Colt, making his first start since the Preakness, finished fourth in the $27,750 Lamplighter at Monmouth Park. And he was a badly beaten fourth, never being in contention and finishing 11 lengths back of Al Hattab in the 1 1 1—16-mile race for 3-year-olds.

Victories in the Futurity and Champagne were among those that made Top Knight the 2-year-old champion of 1968, and then he scored in the Flamingo and Florida Derby to become one of the prime favorites in the Kentucky Derby.

But he finished fifth in the Derby, then fourth in the Preakness. And now the Lamplighter. What next for Top Knight?

Al Hattab, owned by Pelican Stable and ridden by Ray Broussard, carried 124 pounds, one less than topweighted Top Knight, to a four-length victory over Prime Fool, with Mr. Leader third. He was timed in 1:42 for a winning mutuel payoff of $8.20.

In three $50,000-added races Saturday, Noholme Jr. upset Tell in the Cinema Handicap for 3-year-olds at Hollfwood Park, Larceny Kid won the Round Table Handicap for 3-year-olds at Arlington Park and Symona II scored in the Sheepshead Bay Handicap at Aqueduct.

Getting an 11-pound weight advantage from Tell, high-weighted at 128 pounds, Noholme Jr. caught him in the stretch and beat him by a head in the Cinema. Makor, Tell's stablemate, was third.

Noholme Jr., owned by Buddy Fogelson and his actress wife, Greer Garson, covered the 1 1⅛ miles in 1:48 2—5 in handing Tell his first defeat in five races on the grass. The winner, ridden by Laffit Pincay, paid $12.60.

Charles W. Engelhard's Larceny Kid, ridden by David Whited, covered 1 1—16 miles on the turf in 1:43 2—5 to win the Round Table over favored North Flight, with Fleet Allied third. Toting 112 pounds, 10 less than the highweighted North Flight, Larcey Kid paid $23.80 in winning his first start on the grass.

Symona II, carrying 109 pounds including Jorge Velasquez, was first in a three-horse photo finish with Harem Lady and Swiss Cheese in making the Sheepshead Bay her first stakes victory for owner Gustave Ring.

Archer Confined To Bed, British Open Chances Hurt

LYTHAM ST. ANNES, England (AP) — George Archer, U.S. Masters champion, was confined to bed today with an attack of gastroenteritis and a cold—only 48 hours before the start of the British Open golf championship.

"I had set my heart on winning this championship," Archer said. "It looks as though I shall have to go into the first round without having had much chance to study the course.

"I've been running a temperature and just aching all over. The doctor has given me a couple of shots and put me on pills. I said I would like to get in a couple of practice rounds, but the doc told me to stay in bed until h gave the all clear."

Archer is one of the favorites in the field of 130 star golfers from all over the world shooting for the crown first competed for 109 years ago.

Billy Casper, two-time winner of the U.S. Open; Jack Nicklaus, who has won just about everything worthwhile in golf, and defending champion Gary Player, who has taken this title twice, are 6-1 joint favorites.

Archer, Bob Charles of New Zealand, Bruce Devlin of Australia, and Lee Trevino, former U.S. Open champion, were 12-1 with Americans Gay Brewer, reigning U.S. Open champion Orville Moody, and Bert Yancey close behind.

The field is one of the strongest in the history of the championship and officials forecast that crowds of up to 20,000 would turn out daily. Play starts over Lytham's 6,848-yard par 35-36—71 course on Wednesday. The prize money of $72,804 is a record for he British Open. The first prize of $10,200 however, is incidental to the fringe that accrue from being the British Open champion.

Borrow won the 1917 Brooklyn Handicap at Aqueduct and beat three Kentucky Derby winners in the process. They were Old Rosebud, Regret and Omar Khayyam.

Right-To-Jaw Heads Field At Waterford

Right To The Jaw, a recent arrival, heads a field of seven named for Monday night's featured attraction at Waterford Park.

Overnight, the track handicapper listed Right To The Jaw as a probable 8-5 favorite. Named to oppose him are Spoilation, Swift Em, Wood Rico, Amber Princess, Timely News and Good Market.

The Monday night program features 10 races with post time set for 7:15 p.m.

Saturday night at Waterford, Mountainside showed his heels to a classy field.

Mountainside, an old - time major stakes campaigner, was the public choice of the more than 6,100 fans and paid $3.20 to win.

The long holiday weekend attracted a total of 18,041 fans who bet $1,434,136.

On the preceding Memorial Day weekend, 18,077 bet $1,434,021.

Paschal Cops NASCAR Run

CHARLOTTE, N.C. (AP) — Jim Paschal grabbed the lead in the 89th lap when Pete Hamilton's engine failed and held it for the next 78 laps to win Sunday's Dogwood 250-miles NASCAR Grand Touring car race.

Paschal pushed his Javelin to an average speed of 124.081 miles per hour on the 167 laps at the mile and a half Charlotte Motor Speedway.

Largest subway in the world is that of New York City, and it is probably the best example of passenger-subway construction. This system is so large that a person can travel from the New Jersey shore, under the city, beneath two rivers into Long Island, without once seeing daylight. The first sections of the New York subway were opened in 1904.

Jump Record Set

Tennessee State Wins AAU Meet

DAYTON, Ohio (AP) — Tennessee State University, led by Eleanor Montgomery with a new American women's high jump record, took team scoring honors Sunday in the women's national AAU track and field meet.

Tennessee State amassed 55.2 points in the rain-marred meet. Next was the Chicago Mayor Daley Track Club with 44, Los Angeles Mercurettes, 36, Canadian Nationals, 35, and New York Atoms, 32.

Miss Montgomery, of Cleveland, leaped 5 feet 11 inches to crack her own national record of 5-9.

The mark was one of only three national records set on the soggy field and track.

Tennessee State set a new American 880-yard relay record of 1:42.4, bettering the mark of 1:43.9 set four years ago by a Cleveland recreation team in a national AAU meet in Columbus.

The other record was a mile relay mark of 3:47.8 set by the Seattle Angels Track Club, which also was the best time run in the world this year.

Barbara Farrell, a U.S. Olympic sprinter from Sacramento, Calif., won two events, capturing the 100 - yard dash and the 220 in relatively slow times of :10.7 and :23.8.

Willye White of the Chicago Mayor Daley club successfully defended her title in the long jump with a leap of 19-8¾, but was short of her American record of 21-6.

Kathy Schmidt, a 15-year-old girl from Long Beach, Calif., heaved the javelin 177 feet 4 inches to unseat defending champ Barbara Friederich of Jersey City, N.J.

Two competitors from the Lincoln, Neb., track club finished one - two in the discus. Carol Frost had a winning toss of 167-3, while Renee Kletchka was second with 156-4.

In a special five-event men's invitational meet Saturday evening, Olympian John Carlos of San Jose State University won the 100-yard and 200 - yard dashes in :09.5 and :20.8.

The world's half-mile record holder, Byron Dyce of New York University, won the mile in 4:07.

Reynaldo Brown of Compton, Calif., world high school record holder in the high jump at 7-3, won that event with a 7-foot leap, while Randy Matson of Houston won the shot put with 65-1¼.

Won't Be The Same Without Don In Dallas

DALLAS (AP) — The Cotton Bowl won't seem the same this autumn without the Dandy Man, swashbuckling hero to some and butter-fingered villain to others, calling the shots on the playing field.

Don Meredith announced his retiremnt from professional football Saturday. For 12 years he was THE quarterback in this football mad town—three years at Southern Methodist and nine with the Dallas Cowboys.

He quit at the age of 31—in his prime as a National Football League quarterback. Only last year he rated as the second best quarterback in the NFL statistically.

The anti-Meredith faction took him apart at every opportunity. They claimed he "choked" in the big games. Anything that went wrong with the Cowboys was Meredith's fault, they claimed, including the narrow NFL championship losses to Green Bay.

He was the target of boos and obscenities. Meredith said he didn't pay attention to the fans, but it had to hurt. It bothered his wife, Cheryl.

The pro-Meredith faction—and there were many supporters—included Vince Lombardi now coach at Washington, who said Meredith would be one of the "great" quarterbacks in the NFL.

Coach Tom Landry of the Cowboys said that on a given day Meredith could be "hotter" than any quarterback in the game.

"When he was on, just look out," Landry said.

But Meredith also had his cold streaks. He was inconsistent, and at times his sideline passes looked like wounded geese flopping to the ground.

Part of his inconsistency stemmed from his many injuries. He played with broken noses, sore arms, busted ribs, and torn knees. But Meredith never begged off.

But the championship losses to Green Bay and last year to Cleveland were crushing blows to Meredith's pride.

"I just don't feel like giving 100 per cent anymore," Meredith said.

And for No. 17 that would have been blasphemy. He never played the game with anything less than zest and vigor.

Even the boo birds will give him that.

Sports Shorts

UTRECHT, Germany (AP) — Karin Muir of South Africa, leading off in a 4x100 meters medley relay, broke the women's world record in the 100-meter backstroke by six-tenths of a second Sunday with a time of 1:05.6 in an international swim meet.

PARIS (AP) — Michele Mombet, Elaine Jacq, Nicole Duclos and Colette Besson of France knocked 3.4 seconds off the women's 1,000 - meter relay world record Sunday with a time of 3 minutes, 34.2 seconds in a track meet against Poland.

WINNIPEG (AP) — Mike Reasor of Palm Beach Gardens, Fla., who "made about 40 miles of putts coming in," captured the $6,000 Manitoba Open Golf Championship Saturday with a four-under-par 68 for a 54-hole total of 209.

Reasor, dropping a 15-foot putt on the final hole, beat Wayne Vollmer of Vancouver by one stroke for the $1,200 first prize on this stop on the Canadian Professional Golfers Association tour.

SKOEVDE, Sweden (AP) — Ron Clarke, Australia's premier long distance runner, won the 5,000 meters in 13 minutes, 37 seconds in a international meet Sunday night while Naftali Temu, the Olympic 10,000-meter champion, finished a disappointing sixth.

Brokaw 9 Up, Ladies Victor

G. W. Brokaw had the best score in the holiday golf tourney at East Liverpool Country Club.

Brokaw finished 9 up in the match play competition against par.

Behind him were Wayne Rice and Ray Clendenning at 5 up and Dr. R.J. Kinsey at 1 up.

Pat DePasquale topped the second division with an even score.

A women's team won the Ladies Amateur - Amateur vs. Men Amateur - Amateur event.

The winning team included Mrs. Robert Patterson, Mrs. James Laughlin, Mrs. D. E. Beatty, and Mrs. R. Henderson. Their winning team score was 29-32-61.

The score was two strokes better than the men's team of Jim Laughlin, W. B. Laughlin, Gordon Weese, and Okey Ludwig.

Another men's team placed third. That team was made up of Bill Hocking, Jr., W. R. Kelly, J. M. Koos, and W. F. Porter.

"It looks like the merger is off. Our computers are exchanging insults!"

PEEK WITH PETE!!

309 13th Street — Modern 1½ story home. First Floor: Enclosed sun porch finished in knotty pine paneling, large living room, formal dining room, modern kitchen with plenty of built-in cabinets and breakfast bar, dining area, modern bath, hardwood floors on the first story. Second Floor: three large bedrooms and a large center hall. Full cemented basement, hot air furnace, glazed tiled laundry room and another bath, large lot 53 x 128. Plus a two car 1½ story garage with an attached work shop, cemented front porch and back porch. This is just like a new home and the owner is sacrificing the price for a quick sale. $13,900.

345 Commerce Street — Remodeled two story home ideal for a small family. First Floor: cozy living room with hardwood floors, modern kitchen with plenty of cabinets and dining area. Second Floor: two large bedrooms with large presses and hardwood floors, one cedar lined clothes press, modern marlite bath, full cemented basement, gas furnace, aluminum storm windows and doors, front and back porches, one car garage, lot 27 x 100, convenient location. $8500.

914 Commerce Street—Cute one story home, entrance hall with a guest closet, cozy living room, modern kitchen with plenty of built - in cabinets, two bedrooms with paneled walls and bath, enclosed back porch, basement, gas furnace, 1½ car garage, extra large lot 100 x 100 with plenty of trees and shrubbery and fruit trees. This is a charming home for a small family. $8900.

810 Aten Ave., Wellsville — Two story home. First Floor: main entrance hall, large living room, dining room, pantry and modern bath, wall to wall carpeting in the living room, dining room and hall. Second Floor: three large bedrooms and bath. Full cemented basement, gas furnace, storm windows and doors, one car garage, large lot. Price reduced to $10,500.

402 9th St. — Remodeled two story home. First floor: large living room with picture window and wall to wall carpeting, modern kitchen with built-in birch cabinets, breakfast bar and stools, enclosed laundry section off the kitchen. Powder room, brand new and extra large family room finished in knotty cedar paneling. Ozite wall to wall carpeting and glass sliding doors leading onto a cemented patio. Second floor: Three bedrooms with wall to wall carpeting (one bedroom is extra large and brand new), modern Marlite bath, new copper plumbing, new wiring, new aluminum siding, cemented front porch, basement, gas furnace, ½ block for school, good location. $13,500.

800 Main Street — Good and convenient location, two story home with a brand new addition. First floor: cozy living room with new wall to wall carpeting, dining area, modern kitchen with plenty of built in cabinets, sewing room, and a new and spacious family room with paneled walls and wall to wall carpeting and thermopane windows. Second floor: two large bedrooms (one bedroom is brand new and extra large with paneled walls and wall to wall carpeting), modern ceramic tiled bath, cemented basement, new hot water tank, gas furnace, one finished bedroom in the basement plus a new central air conditioning system that cools the entire home in the summertime. This home has a new addition and the balance of the home has been remodeled. $13,800.

409-14th St. — Remodeled two story home. First floor: cozy living room, family room, large kitchen with plenty of built in cabinets. Second floor: three large bedrooms and modern ceramic tiled bath with a beautiful vanity. Full cemented basement, new gas furnace, new gas and water service lines. Storm windows and doors, front and back porches. Lot 30 x 100. This home has been completely remodeled and the interior as well as the exterior are in good repair. PRICE REDUCED TO $10,000.

1087 Hillcrest Rd., Wellsville — two story home. First floor: enclosed sun porch finished in panelling and two picture windows, remodeled dining room, nice kitchen with plenty of built-in cabinets and bathroom. Second floor: four large bedrooms and enclosed sun porch. New gas furnace, 1½ car attached garage, cemented front porch. Lot 2.147 acres. This is a good buy at $8,500.

235 and 253 3rd St. Double brick home. The 235 side: first floor: living room, family room with artificial fireplace and bookcases on each end. Formal dining room, large kitchen. 2nd floor: 4 large bedrooms and bath. This side has just been completely remodeled. 233 side: 1st floor: 5 rooms and semi-bath. 2nd floor: 4 rooms and bath. 3rd story: 5 rooms. Full basement, coal furnace. Call for details!

Today In History

By The Associated Press

Today is Monday, July 7, the 188th day of 1969. There are 177 days left in the year.

On this date in 1937, the Sino-Japanese War began with a clash between Japanese and Chinese soldiers at the Marco Polo Bridge near Peking, China.

In 1801, the Negro Genera, Toussailn L'Cuverture, procaimed Haiti's independence from France.

In 1865, four persons were hanged after being named as accomplices of John Wilkes Booth in the assassination of President Abraham Lincoln.

In 1898, the United States annexed the Hawaiian Islands.

In 1941, during World War H, U.S. forces landed in Iceland to forestal any Nazi invasion.

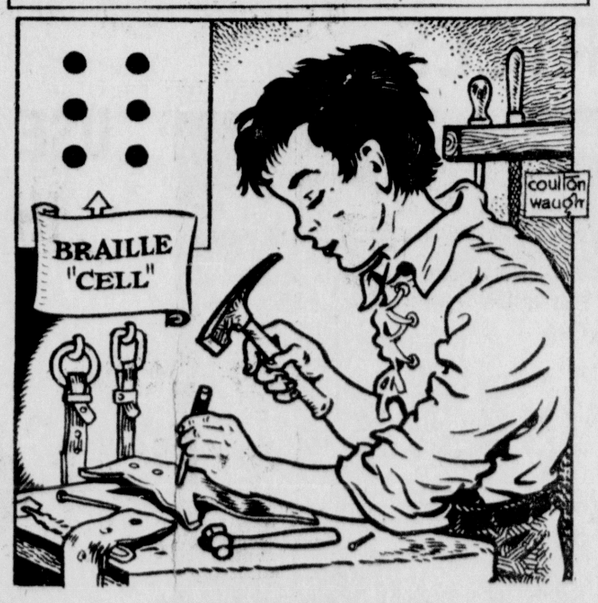

In 1958, President Dwight D. Eisenhower signed the Alaska statehood bill.

Ten years ago — Burma had reversed a six-year-long refusal to accept U. S. aid.

Five years ago — An avalanche in the French Alps killed 14 mountain climbers.

One year ago — East German border police gunned down two persons trying to cross the Berlin Wall to reach West Berlin.

Junior Editors Quiz on BRAILLE

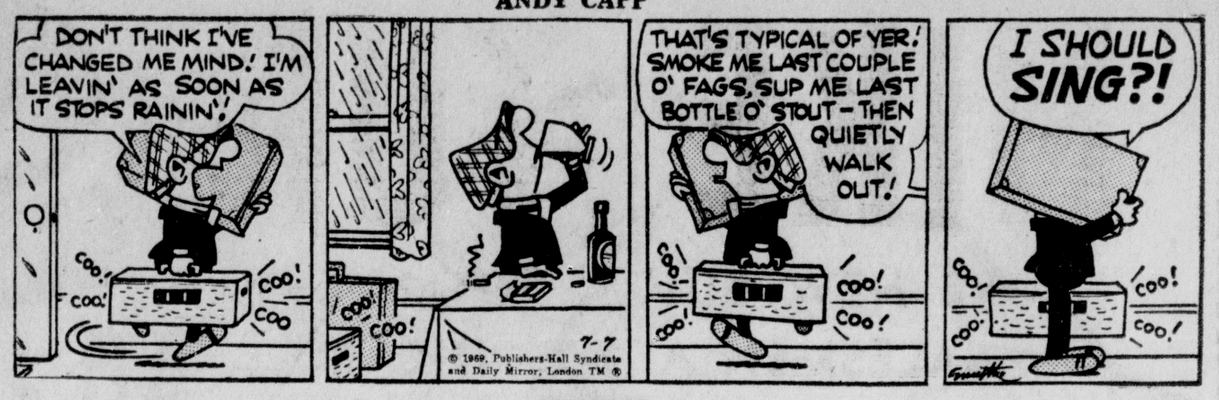

QUESTION: *How did Louis Braille invent the Braille system?*

* * *

ANSWER: When very small, a French boy named Louis Braille, the son of a harness maker, lost both eyes in an accident. This was in 1809. Louis did not lose his ambition to learn. He began to experiment to find a way to help blind people read. He tried to make a code by punching holes in leather. One day he found that if he punched a hole partly through he could feel the bump on the other side easily. This was the foundation of the Braille system, but Louis did not perfect it immediately. He went to school for the blind in which he finally became a teacher and a well-known musician. But Braille's great ambition was still to perfect an alphabet so that blind people could read. He decided that the raised dots he had discovered as a boy had the best promise. He arranged a group of six, called a cell. Each letter is a selection of dots from this group. Braille developed his system in 1824. By 1870 it was chosen best in competition with others and spread all over the world.

(Mary Margaret Buckley of Geneva, N.Y., wins a prize for this question. You can win $10 cash plus AP's handsome World Yearbook if your question, mailed on a postcard to Junior Editors in care of this newspaper, is selected for a prize.)
